Two Sections—Section Two

Engineering News-Record

A Consolidation of Engineering News and Engineering Record

A JOURNAL OF CIVIL ENGINEERING AND CONSTRUCTION

ISSUED WEEKLY

VOLUME 96

January 1 to June 30, 1926

McGRAW-HILL PUBLISHING COMPANY, INC.
TENTH AVENUE AT 36TH STREET
NEW YORK

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 96—January 1 to June 30, 1926

	Pages
Jan. 7	1 to 48
Jan. 14	49 to 100
Jan. 21	101 to 140
Jan. 28	141 to 180
Feb. 4	181 to 224
Feb. 11	225 to 264
Feb. 18	265 to 304
Feb. 25	305 to 346
Mar. 4	347 to 390
Mar. 11	391 to 430
Mar. 18	431 to 470
Mar. 25	471 to 510
April 1	511 to 554
April 8	555 to 594
April 15	595 to 634
April 22	635 to 674
April 29	675 to 714
May 6	715 to 756
May 13	757 to 794
May 20	795 to 834
May 27	835 to 882
June 3	883 to 926
June 10	927 to 966
June 17	967 to 1006
June 24	1007 to 1046

A

ACCIDENTS AND PREVENTION
American Society of Civil Engineers, New York Section, considers structural safety bill n504
Bucks Creek hydro-electric project tunnel cave in imperils six, five killed n708
Grandstand, Pasadena, Calif., collapse n35
Norman, sinking of:
Gardner, Major W. M., body found in Mississippi River n376
Pennsylvania train wreck r1008, n1038
Shenandoah, disaster:
"Duralumin embrittlement a serious problem. A. S. Niles 134
Naval Court of Inquiry report e1
Advisory Board on Highway Research:
Earth road research undertaken e2
Reinforcement in concrete roads, economic value, Highway Research Board survey 11
Aerial surveying. (See Surveys and surveying.)
AERONAUTICS
Aerial transportation symposium held by Engineers' Club of Philadelphia n540
Air commerce act:
Appropriations totaling 550,000, for installation, operation and maintenance of additional airways n912
Air commerce bill requires registration of aircraft engaged in interstate transportation n827
Air mail carries quick answer to telegram e101
Landing fields:
Tower 210 ft. high for airship mooring at Detroit airport, Dearborn, Mich. H. V. Thaden ..... •202
Agricultural engineering, progress and opportunities, e1009, Q. C. Ayres ..... •1018
Akron, Ohio, sewage works, trickling filters will use 223,000 cu.yd. of limestone. J. E. Root 803
Alan Wood Iron & Steel Co., one hundred years old n426
Albuquerque, N. M., city engineering ..... •694
American Architect, fifty years of service e102
AMERICAN ASSOCIATION OF ENGINEERS
Annual convention at Philadelphia n1000, 1028
National work in promoting engineering betterment. A. Richards 1784
Nominees for offices n826
Ullrich, C. J., elected president ..... n•1000
Withdrawal of Oregon and San Francisco chapters n296
Sacramento and Stockton societies do not approve secession. L. V. Campbell and Stockton chapter .. 1537
AMERICAN CONCRETE INSTITUTE
Annual meeting, lime in concrete, curing, and strength of concrete among subjects discussed n211, e348, 308, n375
AMERICAN CONSTRUCTION COUNCIL
Governors of society meet n829
AMERICAN ENGINEERING COUNCIL
Annual meeting—election, approval of Public Works Department bill, plan to study reclamation n134, e141
Board meets at Detroit and discusses council affairs, day labor and licensing n957
Cincinnati club joins Council n209
Public Works Department of United States, committee meets n402
Safety in production, study started n876
AMERICAN ENGINEERING STANDARDS COMMITTEE
Cast-iron pipe section committee holds organization meeting n706
Wire and sheet metal gages to be subject of conference with several organizations n379
American Institute of Quantity Surveyors, new organization, formed n997
American Institute of Steel Construction Activities extended n342
American Motor Rubber Corp., formation .. n426
AMERICAN PUBLIC HEALTH ASSOCIATION
Special meeting at American Health Congress in May n339
AMERICAN RAILWAY ENGINEERING ASSOCIATION
Annual meeting e431, 488, n463
Exhibit of appliances n466
Felt, C. F. W., elected president ..... n•464
AMERICAN ROAD BUILDERS' ASSOCIATION
Annual meeting in May n586
Annual meeting held at New York n828
Convention reviews highway development e101, 104
Good roads essay contest, judges named .. n37
Good Roads Show:
Highway machinery exhibit report e101, n136
AMERICAN SOCIETY OF CIVIL ENGINEERS
Annual meeting includes seven divisional meetings e142, 154, n171
Bequests and endowments urged to help increase work of society. Well Wisher .. 1374
Bonding of professional engineers opposed n423
Buffalo Section seeks to promote observance of New York State engineers' licensing law 579
Conference Committee adopts steel working stress of 18,000 lb. n874
Davison, George S., elected president .. n•131
Election of officers:
Much ado about an election 1130
Honorary members, two added n133
Kansas City meeting, discussion of motor vehicles on railway and urban and other transportation n587, 661
Medals and prizes awarded ..... n•132
New York Section considers structural safety bill n504
Stevens, J. F., leads for president; other nominations n911
Surveying and Mapping Division created .. n131
AMERICAN SOCIETY FOR MUNICIPAL IMPROVEMENTS
Fall meeting to be in Washington, D. C. .. n785
AMERICAN SOCIETY FOR TESTING MATERIALS
Annual meeting at Atlantic City Program .. n873
Metals and textiles, better specifications discussed by committees, at Providence meeting 495
Nominations for officers n829
AMERICAN WATER WORKS ASSOCIATION
Annual convention, at Buffalo:
Business proceedings and general activities n997
Equipment and materials convention n1002
Papers grouped under intakes, pumping stations, purification, distribution, and design and operating problems a•986
Cuddeback, A. W., elected president .. n•998
Exhibitors at annual meeting .. n790, n916
Federal Income Tax Committee circular to water-works employees n376
New York Section, meeting n542
Rocky Mountain Section formed n378
American Welding Society:
Meeting, and discussion of fusion welding n706
Rotary kiln construction, riveting and welding comparison report 889
Analyzer for continuous beams and rigid frames developed (Gottschalk) ..... n•590
Aqueducts:
Catskill aqueduct system, status at end of 1925 85
Providence, R. I., water supply aqueduct, construction of steel portion. B. F. Snow ..... •159
ARCHES
Skew arches being investigated by means of hard rubber models, by Prof. G. E. Beggs at Princeton 1021
Temperature deformations in concrete arches. H. Cross ..... •190
Trolley wire arches of precast concrete used by Detroit, Toledo & Ironton R.R. ..... •313
Arkansas cities unite to seek bond issue authorization n423, e431
Arkansas highway organization and development ..... •724
Armour Institute of Technology merged into Northwestern University n210
ASPHALT
Association of Asphalt Paving Technologists formed n298
Grouting of asphalt under Hales Bar dam to eliminate seepage, e795. G. W. Christians ..... •798
Associated Equipment Distributors, meeting n99
ASSOCIATED GENERAL CONTRACTORS
Annual meeting, day labor, government in business, bonding situation and legislation discussed; progress made toward ideals of association e182, 198
Day labor and government in business discussed at Portland n173
Executive board and president's council meets in Washington and discusses day-labor legislation and licensing contractors n825
Northern California, Contractors Association of, to join Associated General Contractors n504
Association of Highway Officials of North Atlantic States, meeting e304, n338
Association of Asphalt Paving Technologists formed n298
Atlanta, Ga.:
Water supply development progress 866
Australia, railway development 479
Automobile and motor truck registration in United States as showing where highway paving programs are needed ..... n•1005
Automobile headlight with backward light feature (General Electric Co.) ..... n•791
Automobile turning radius. (See Garages.)

B

Backfilling:
Adjustable boom and full-circle swing on new backfiller (Buckeye Traction Ditcher Co.) ..... n•507
Baltimore, Md.:
Impounding reservoir of 23 b.g. n586
Sewage sludge, heat drying tried but discontinued. C. E. Keefer 238
Water supply development progress 866
Barge lines:
St. Louis to St. Paul barge line to be operated n256
Bay City, Mich., water works, new plant displaces two old plants. J. W. Ellms .. •682
BEAMS
I-beams:
"Junior" I-beam, for joint floor construction, developed by Jones & Laughlin Steel Corporation ..... •736
Stress distribution in web of I-beams, observations and formulas. O. H. Basquin ..... •892
Reinforced concrete beams:
Bond and anchorage, unreliability of bond formula (paper before Western Society of Engineers) n908
Bearing, with oil circulation and filtration features (Willamette Iron & Steel Works) n1004
Bin for material storage, of tile (Stearns Conveyor Co.) n963
Binghamton, N. Y., city engineering ..... •730
Bismarck, N. D., water works, new pumps and filters housed in a single building. T. Dickinson ..... •871
Boilers:
Water tube walls used in place of refractories in new boiler (Combustion Engineering Corp.) ..... n•671
BONDS
Arkansas cities unite to seek bond issue authorization n423
BOOK REVIEWS
American City government (W. Anderson) 955
Beton: Herstellung, Gefuge und widerstandsfahigkeit gegen physicalische und chemische einwirkungen. R. Grun 823
Bureau of Standards: Its History, Activities and Organization. G. A. Weber .. 127
Chadwick, Sir Edwin. M. Marston 457
Civil aviation, report by U. S. Department of Commerce committee and American Engineering Council 290
Depreciation in public utilities. D. F. Wilcox 458
Einflusse auf beton (A. Kleinlogel, mitarbeit Dr. F. Hundesnagen) 995
Elements of Business Statistics. R. Riegel 126
Fresh air and ventilation. C. E. A. Winslow 292
Guiding Principles of Public Service Regulation. H. C. Spurr 127
History of economic progress in the United States. W. W. Jennings 291
Industrial Museum. C. R. Richards 126
Introduction to the Methods of Economic Statistics. W. L. Crum 126
Lake Tana, report of mission to, 1920-1921. G. W. Graham 458
Lehrbuch des Tiefbaues, Zw. Band, Bruckenbau, etc. 456
Light and Health. M. Luckiesh 125
Memoir of Fleeming Jenkin: records of a family of engineers 292
Ministry of Health. (English) Sir A. Newsholme 457
Municipal year book for 1926 (English) 955
New international year book. H. T. Wade, editor 823
Niagara in politics. J. Mavor 125
North America: its people and the resources, development and prospects, etc. J. R. Smith 457
Practical water-power engineering (English). W. T. Taylor 292
Principles and Practice of Surveying, Volume II: Higher Surveying. C. B. Breed 125
Public Health Law: A manual of law for sanitarians. J. A. Tobey 127
Railway engineering and maintenance cyclopedia 822
Researches in concrete. W. K. Hatt 290
Roebling, John A., Sons Co. monograph on Suspension bridges and their cables 290
Roof Coverings: their manufacture and application. E. G. Blake 126
Secret of high wages (B. Austin and W. F. Lloyd) 994
Sewage purification and disposal. G. B. Kershaw 457
Sicherheit der Bauwerke (M. Mayer) 994
Statistical method. H. Jerome 126
Superpower: its genesis and future. W. C. Murray 291
Tests for railway material and equipment. H. Knauer; reviewed by R. Job 291
Transportation economics of Great Lakes-St. Lawrence Ship Channel. A. S. Ritter 456
Vibration in engineering. J. Frith and F. Buckingham 823
Wasserbaulaboratorien Europas: Entwicklung Aufgaben Ziele (C. Matschoss, J. R. Freeman, H. Engel, and others), reviewed by E. W. Shoder under head, European river-hydraulics laboratories. 821

•Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

BOSTON, MASS
Parking on streets, Mayor Nichols' plan to charge for space e265
Tube system between North Station and South Station, re-establishment proposed 256
Water supply:
Development progress 866
Massachusetts law passed permitting Boston Metropolitan District to go to Ware and Swift Rivers for more water e929, 934
Boston Metropolitan District:
Water supply, Massachusetts law passed permitting Boston district to go to Ware and Swift Rivers for more water e929, 934
Brazil, new port at Santos planned..287, n377
Breakwaters:
Ludington, Mich., breakwater damaged..n665

BRICK AND BRICKWORK
Belgium exports of brick and cement to United States increase n426
Lime-mortar brickwork, early strength..908
Paving brick:
Simplification committee holds annual meeting, and makes no change in paving brick varieties n585
Thin paving brick, use considered by National Paving Brick Manufacturers Association n178
Prison-made brick, Missouri adopts novel method of selling n672

BRIDGE ACCIDENTS
Oakland Estuary bridge, swing span wrecked by steamer ..... n97, n•134
Washington, D. C., Culvert St. bridge accident, automobile goes over curb guard because of snow packed in roadway e347

BRIDGE CONSTRUCTION
Approach fills, supporting pavement slabs, Wisconsin practice, F. M. Balsley ..... j•31
Cableway erection of Crooked River steel arch highway bridge in Oregon, C. B. McCullough ..... •760
Railings:
Cork filler used to provide expansion, F. M. Balsley j419

BRIDGE DESIGN
Arches:
Temperature deformations in concrete arches, H. Cross ..... •190
Loadings and engine ratings, M. K. T. computing tables, G. L. Staley ..... j•416
Cairo, Ill., bridge over Ohio River, War Department to pass on adequacy of bridge plans n541
Concrete:
Rigid frames, in continuous structures, in concrete bridge construction, as in Westchester County, New York) bridges, e677, A. G. Hayden ..... •686
Copenhagen bridge design prizes awarded n999
Rigolets bridge in Louisiana, anchorage and bearing details ..... •288
Suspension bridges and their cables, monograph by John A. Roebling's Sons Co. Book review 290
Swing bridges:
Center bearing disk for swing spans of Washington state highway bridge, has novel features ..... j•168
Bridge maintenance:
Floors:
Concrete floor slabs for bridges, wearing surface for protection, E. F. Kelley 26

BRIDGES
Arlington Memorial bridge:
Bids:
Twelve bidders n94
Status at end of 1925 85
Work started in March n254
Bear Mountain bridge:
Cable spinning, speed on Bear Mountain bridge compared with speed on Brooklyn bridge, H. C. Baird l584
Cables:
Speed of cable spinning:
Bear Mountain bridge and Brooklyn bridge compared, H. C. Baird..l584
Cairo, Ill., bridge over Ohio River, War Department to pass on adequacy of bridge plans n541
Cantilever:
Mount Hope toll bridge, at Providence, R. I. ..... •438
Central R.R. of New Jersey bridge over Newark Bay, design, duplicate spans, lift spans, and general facts of construction ..... e471, •474
Champlain, Lake, bridge, New York state commission reports on five sites n664
China, reinforced-concrete continuous girder bridge built ..... •149
Columbia River bridges:
Great Northern Ry. bridge at Wenatchee, Wash., reinforcing of bridge to double original strength, cantilever erection method used, H. S. Loeffler ..... •558
Rainier-Longview bridge:
Port of Portland Commission holds hearing and rejects plans..n257, n298
Concrete:
Donner Summit, Calif., concrete arch bridge ..... •357
Rigid frames in concrete bridge construction, as in bridges in Westchester County, New York, e677, A. G. Hayden ..... •686
Swedish State Rys. bridge near Krylbo, concrete bridge designed for elastic movement, C. R. King ..... •1022
Concrete floor slabs, wearing surfaces for, tire chains, effect on pavement, E. S. Ross and E. F. Kelley l460
Continuous structures to the fore, as in Westchester County (New York) bridges, e677, A. G. Hayden ..... •686
Corrosion:
Viaduct, old, in western Pennsylvania, corrosion at joints and in concrete-incased steel, A. R. Ellis 779
Crooked River bridge in Oregon, steel arch highway bridge, erected by cableway, C. B. McCullough ..... •760
Detroit River bridge:
More towns approve plan n37
Donner Summit, Calif., concrete arch bridge ..... •357
Douglas memorial bridge in California completed, H. D. Miller ..... •991
Drawbridges:
Opening of drawbridges for water traffic during rush hours of rail traffic, e511, n540, e536, H. Taylor l662
Floors:
Concrete floor slabs for bridges, wearing surface for protection, E. F. Kelley 26
Great Northern Ry. bridge over Columbia River at Wenatchee, Wash., reinforcing bridge to double its original strength, H. S. Loeffler ..... •558
Fort Lee bridge. (See Bridges, Hudson River.)
Highway:
Harahan bridge over Mississippi between Arkansas and Tennessee, agreement to build approaches signed n298
Highway bridge construction activity in 1925 ..... •79, •122
San Joaquin River toll bridge, near mouth of river, opened n97
Schenectady-Scotia bridge, New York State, opened for traffic ..... n•37
Trough timber bridges built as temporary stream crossings, in Missouri, E. S. Austin ..... j•167
Hudson River:
Mid-Hudson or Fort Lee bridge at 178th St., New York City:
Engineers make favorable report..n464
Great enterprise e432
New Jersey appropriates money toward building of bridge n462
New York State legislature appropriated $2,000,000 toward construction of interstate bridge across Hudson n706
Money not available until 1927..n785
Piers, bids submitted n875
New York-New Jersey bridges, bonds issued by Port of New York Authority n423
Jacksonville, Fla., St. Johns River bridges, movable bridges of three types grouped at one point ..... n•541
Logging railroad bridge, made of borrowed marketable lumber, on Joe Moore Creek in Tillamook County, Oregon, C. E. Stanley ..... j•953
Missouri builds timber trestles with concrete floors ..... •536
Mount Hope toll bridge, Providence, R. I., cantilever bridge planned ..... •438
Further study of project n742
New York Port Authority:
Bridge work, status at end of 1925 85
Newark Bay bridge of Central R.R. of New Jersey. (See Bridges, Railway.)
Ohio River:
Cairo, Ill., bridge, War Department to pass on adequacy of plans n541
Portsmouth, Ohio, to Fullerton, Ky., contract let on suspension design..n542
Panama, La Chorrera, ingenious highway bridge built of I-beams and railroad rails, G. L. Knott ..... j•781
Philadelphia-Camden bridge (Delaware River bridge):
Construction status at end of 1925 84
Costs again increased n424
Opening to traffic will take place July 1, 1926 ..... n585
Tolls controversy:
Pennsylvania legislature approves bridge tolls plan n209, n337
Pennsylvania legislation for toll collection—a previous bad policy disavowed e305
Pinchot, Governor, advocates tolls.n133
Tolls agreement, Pennsylvania-New Jersey, prepared n423
Portland, Ore.
Sellwood bridge over Willamette River opened n36
Portsmouth, Ohio, contract for bridge let on suspension design n542
Quebec bridge builder, Phelps Johnson, death ..... n•376
Railway:
Ballasted-deck plate-girder bridge, longest, built by Elgin, Joliet & Eastern Ry. ..... •328
Central R.R. of New Jersey bridge over Newark Bay:
Foundations of two types and of unique character ..... e182, •184
Engine ratings and bridge loadings, M.-K.-T. computing tables, G. L. Staley ..... j•416
Precast units used in building bridge of 36-ft. span, Delaware, Lackawanna & Western R.R., near Harrison, N. J., M. Hirschthal ..... j•332
Rigid frames in concrete bridge construction, as in Westchester County (New York) bridges, e677, A. G. Hayden, •686
Rigolets bridge in Louisiana, anchorage and bearing details ..... •288
San Francisco Bay bridges:
Golden Gate bridge project, promotion methods disapproved by joint council of San Francisco engineering societies n504
War Department procedure, change of policy urged by A consulting engineer n36
Schenectady-Scotia bridge, New York State, opened for traffic ..... n•37
Spanish Trail bridge, near New Orleans, near completion ..... n•785
Staten Island-Bayonne bridge:
Appropriation by states of New York and New Jersey for surveys and borings n705
Steel:
Crooked River steel arch highway bridge in Oregon erected by cableway, C. B. McCullough ..... •760
Suspension:
Cables:
Speed of cable spinning:
Bear Mountain and Brooklyn bridges compared, H. C. Baird..l584
Ohio River bridge, Portsmouth, Ohio, to Fullerton, Ky., contract let on suspension design n542
Roebling, John A., Sons' Co. monograph on Suspension bridges and their cables. Book review 290
Swiss station Vallorbe of Lusanne-Paris Railway, old iron bridge transformed to masonry arch viaduct, F. H. Constant ..... •810
Timber:
Logging railroad bridge built of lumber, borrowed from marketable stock, across Joe Moore Creek in Tillamook County, Oregon, O. E. Stanley ..... j•953
Missouri builds timber trestles with concrete floor ..... •536
Toll:
Arkansas state toll bridge, Red River, near Fulton, authorized by Congress n424
Boston Metropolitan Planning Division favors the toll bridge plan e227
Moderation in toll bridge construction needed e347
Mount Hope toll bridge, near Providence, R. I., cantilever planned ..... •438
Further study of project n742
Philadelphia-Camden bridge. (See Bridges, Philadelphia-Camden.)
San Joaquin River toll bridge, near mouth of river, opened n97
Season rates on St. Johns River toll bridge n743
British Columbia legislature authorizes city planning 771
British strike:
General strike as a labor weapon proved..e795
Result of "muddling through" e759
British units, confusion in railway work, British colonial engineer l910
Buffalo, N. Y.
Passenger terminal planned n96
Traffic control progress in 1925 568
Water supply:
Filters nearly completed n866
Zoning ordinance, comprehensive, adopted, n37, 247

BUILDING
Wiser building, discussed before New York Building Congress by Franklin D. Roosevelt n593

BUILDING ACCIDENTS
Grandstands:
Pasadena, Calif., grandstand collapse, with fatalities, builder guilty of manslaughter n744
New Britain Conn. factory wrecked by gale, no one found responsible n462

BUILDING CONSTRUCTION
Adding seven stories to a 12-story building, Standard Oil Building, Chicago..j•580
Commercial Cable Building, New York City, alterations involving a 26-story self-sustaining wall, D. C. Coyle ..... •774
Inspection improvement, as advocated at Building Officials Conference at Columbus by E. C. Kerth and as advocated by Joint Committee on Structural Safety e758
Mechanizing building construction, extent of use of mechanical equipment..e907
Mixers. (See Concrete Mixers.)
New York City, poor building does not include steelwork—structural steelwork defended, C. L. Eidlitz l34
Permanence and impermanence in American building, and comparison with Europe n593
Plant layout, economical, for Harris-Newmark Building, Los Angeles, Z. Witkin ..... •982
Sidewalk protection bridge uses standardized steel frames ..... n•1043
Tile partitions, positions marked by black paint on the concrete slabs, in building South High School at Denver, Colo., N. L. Protheroe ..... j•496

Building Demolition:
Pile hammer used to break up concrete in rapid building demolition, New York City ..... j•415

BUILDING DESIGN
Batten-plate columns; their status and a design theory, R. Fleming and W. H. Weiskopf ..... •412
Concealment of heavy stressed tension members where they can not be inspected is a possible source of danger in large buildings, J. Chandler l956
Concrete, old building tested for strength of flat slab shows stronger than Joint Committee rules would have indicated (warehouse in Minneapolis), W. H. Wheeler l253

Earthquake expectancy in California and importance to engineer. H. D. Dewell .....•114
Market and garage, municipal, at St. Louis, Mo., design and construction. e266, L. R. Bowen .....•268
Masonry veneer attached to concrete walls. Specifications in building code of Santa Barbara, Calif., for resistance to fire and earthquake shock. W. M. Stineman .....•731
Stress distribution:
Graphical construction of stress distribution diagram:
J. A. Wise .....j•248
W. W. Hay .....l•537
T. Lindberg .....l•537
H. A. Schirmer .....l•537
Stevens Hotel, Chicago, steel trusses carry 22 stories over open floors. e636, •638
Building economics:
Overcapitalizing buildings, New York City e141
Building failures:
Grandstand, Pasadena, Calif., collapse .. n35
Reviewing stand, Pasadena, Calif., that collapsed found defective in design .. •174
Building laws and regulations:
Ohio building code revisions considered .. n999
Building Officials Conference:
Columbus meeting, better construction discussed n741
Inspection improvement advocated ...e758
Building repair:
Column, cast-iron, carrying ten stories removed, store in Philadelphia .....j•1030
Prosenium arch in Cleveland theater, brick wall underpinned to remove arch. A. H. Taylor .....•681

BUILDINGS:
Commercial Cable Building, New York City, alterations involving a 26-story self-sustaining wall. D. C. Coyle ....•774
Concrete:
Church of concrete at Los Angeles ..•701
Harris-Newmark Building, Los Angeles, economical layout for concreting. Z. Witkin .....•982
Industrial:
Garages, turning radius of automobiles is factor in designing garage doors. L. Perry .....j•582
St. Louis, Mo., municipal retail market and garage, design and construction. e266, L. R. Bowen .....•268
Warehouse of Hibbard, Bartlett & Spencer, in Chicago, embodies latest industrial building design .....•901
Paramount Theater, New York City, trusses of great size erected by traveler .....•454
Stevens Hotel, Chicago, design, steel trusses carry 22 stories over open spaces .....e636m •638
Warehouses:
Toronto, Ont., $5,000,000 terminal warehouse to be built n705
Bulkheads:
Piles, interlocking, of gunite, used along Florida coast .....j•660
Business:
Wall Street slump, squeezing out the water e391

C

Cables:
Brooklyn bridge and Bear Mountain bridge, speed of cable spinning. H. C. Baird .....l 584
Light cables buried without use of trench (Killefer Mfg. Co.) .....n•428
Wire rope sockets, how to attach n506
Caissons:
Bearing-power tests on deep caisson foundations, American Insurance Union Building in Columbus. R. L. Waring and C. T. Morris .....•109
Jamaica, Long Island, sewage-works foundations, caisson sinking in saturated sand solved by plan of plant layout .. •1016
Calculator, pocket, uses metal tube construction (A. S. Aloe Co.) n963

CANALS
All-American canal. (See Canals, Great Lakes to Hudson.)
Canadian canal costs 720
Chesapeake and Delaware canal, status at end of 1925 84
Chicago drainage canal:
Construction status at end of 1925 ... 84
Lockport lock construction plant. e226, •227
(See also Illinois waterway.)
East St. Louis drainage canal contracts invalid n502
Great Lakes to Hudson canal:
All-American canal plan, Rivers and Harbors Board hearing n421
Chief of Engineers report unfavorable on Great Lakes to Hudson waterway 721
Delay of action by Congress suggested in report of Gen. Harry Taylor n542
Lakes to Hudson canal, a recurrent ghost e433
Locks:
Lockport locks of Illinois waterway, gates, lift design, of heavy construction. W. M. Smith .....•722
New York State Barge Canal:
Civil service examinations for barge canal superintendents n502
Fleet of new boats n913
Governor of New York would make ship channel of barge canal n421
Survey Commission report optimistic. n297
Panama Canal:
American coastwise and foreign trade in 1925 117
Portage canal, Wisconsin, failure of lock and emergency repairs n999
Welland canal, status at end of 1925 ... 85
Capstan, vertical, electric operation, for spotting railway cars (Caldwell & Son Co.) .....n•746
Cataloging, trade, simplified n710

CEMENT
Alumina cement:
Dredge hull repair using alumina cement. W. M. Acheson .....j•581
Foundation data given quickly in tests for two California bridges and city hall at St. Joseph, Mo. .....j•251
Belgium exports to United States of cement and brick increase n426
Cement-lime mortars, tests at Bureau of Standards 653
Consolidated Cement Corp., formation .. n590
Lime-silica index as measure of cement quality. T. Merriman .....•648
"Lone Star" to be brand name of cement, product of International Cement Corp. .n260
Missouri State Highway Commission changes specifications for cement quality for its own work. F. V. Reagel .. •657
Prehydration in concreting. (See concreting.)
Production of Internatio ' Cement Corp. n301
Standard specification for portland cement, several state highway departments require higher tensile mortar tests e472
Chile, South America, port developments .. 851
Chimney, reinforced-concrete, tallest on ' American continent, built for Wedge Roaster Plant in British Columbia ....•906
Church, concrete, at Los Angeles .....•701

CHICAGO, ILL.
Bond issue, large, voted for street widening, lighting, bridges, etc. n665
Calumet harbor project checked n255
Chicago River straightening project, agreement reached by railroads and other interests n707
Commercial Club to make port plan n172
Harbor survey to be made by Major R. W. Putnam n786
Refuse collection, tractor and trailers purchased. W. J. Galligan (A.S.M.I. paper) a27
Sewage disposal. (See Chicago Sanitary District.)
Western Ave. pumping station, world's largest, factors in location and in design of station. e835, L. D. Gayton .. •838

CHICAGO DIVERSION OF WATER FROM GREAT LAKES
Army engineers (Board of Engineers and Harbors) recommend restricting Chicago diversion e556, 576
Canadian-United States correspondence made public by U. S. War Department. n422
Wisconsin, Ohio, Minnesota and Pennsylvania suit against Chicago Sanitary District, defendant's plea for dismissal not granted n503

CHICAGO SANITARY DISTRICT
Budget, largest, passed n296
Sewage-works:
North Side plant, early design and construction. E. J. Kelly .....•394
Sewage works, status of construction on the six major projects. E. J. Kelly. •363
Cincinnati, Ohio:
Water-works, old campaign for municipal ownership 443

CITIES
Annexation as means of enlarging—case of Moline and East Moline, Ill. e2
Parking:
Boston mayor's plan to charge for street space used in parking e265
Traffic. (See Traffic; also cities by name.)
City engineers. (See Engineering in the small city; Municipal engineering.)

CITY MANAGER GOVERNMENT
Kansas City, Mo., institutes council-manager form of government n667
Minneapolis, Minn., charter proposed, for city manager plan, goes back to checks and balances e929
Seattle, Wash., rejects manager plan and elects woman mayor n462
Waco, Texas, vote not to abandon city manager plan n504

CITY PLANNING
British Columbia legislature authorizes city planning 771
Building restrictions:
Milwaukee, Wis., tenement restriction lessening ordinance vetoed by mayor. n828
Mussolini a city planner e636
New York City, city planning and survey committee of 475 members appointed. n998
St. Louis, Mo.:
Major street plan to be carried out .. n588
Street widening upheld by state supreme court n959
Washington, D. C., city planning commission appointed by President n874
Zoning:
Aurora, Ill., appeal on zoning dropped by objectors n587
Aurora, Ill., court decision reversed in favor of zoning 656
Bismarck, N. D., zoning again upheld by North Dakota Supreme Court ... n541
Board of zoning appeals can not set aside ordinance limits n588
Buffalo, N. Y., comprehensive zoning ordinance adopted n37,247
New Jersey, constitutional amendment as aid to zoning in the state 897
New York State grants zoning powers to towns n786
Pittsburgh, Pa., Board of Zoning Appeals can not set aside ordinance limits n588
United States, number of zoned cities contiuously increasing 25
Virginia zoning act adopted 731
Clay studies. (See Foundations.)
Cleveland, Ohio, Chamber of Commerce, medal awarded to city engineer, Robert Hoffman n785
Climatological data for United States 736
Coal:
British coal strike. (See British strike.)
Strike in anthracite field, Muddling through e265
Strike in anthracite field brings furnace troubles as well as high price of coal .. e225

COFFERDAMS
Chicago warehouse, separate cofferdams for each of 218 footings used because of wet construction conditions .....•281
Commercial Cable Building, and Mutual Life Building, New York City, two early deep cellar buildings. T. K. Thomson 910
Hudson Terminal Building, New York City, large caisson cofferdam without temporary bracing. J. V. Davies 703
St. Louis water supply intake at Howard Bend on Missouri River.
Cellular wall cofferdam built to inclose intake emplacement. J. C. Pritchard •862
Underwater piledriving and sealing of cofferdam. J. C. Pritchard .....•930
Colombia, South America, railroad program 578
Columbus, Ohio, pavement costs, asphalt and brick, compared for many years. R. H. Simpson .....•48

COLUMNS
Batten-plate columns: their status and a design theory. R. Fleming and W. H. Weiskopf .....•412
Batten-plate columns:
Tests of batten-plate columns needed. C. F. Christensen 584

COMPRESSED AIR
Air compressors:
Hoist and compressor combined (Schramm, Inc.) .....n•963
One-drill compressor for cement gun (Cement Gun Co.) .....n•711
Trailer type compressor improved (Curtis Pneumatic Machinery Co.). n•428
Tunnel work for Balch hydro-electric plant in California, air lift replaces sidings for exchange of cars .....j•954

CONCRETE
Admixtures, such as diatomaceous earth, effect of. G. M. Williams and G. W. Hutchinson .....l 129
Church, of concrete, at Los Angeles .. •701
Curing:
Semi-arid climate, use of calcium chloride in curing concrete, studies by California Highway Commission .. •452
Diatomaceous concrete workability. B. F. Jakobsen .....l 170
Disintegration of concrete:
Engineering Institute of Canada, report at meeting of investigations made in Saskatchewan 482
Flat-slab strength increases with time. C. A. P. Turner .....l 336
Frozen concrete, how to prevent and to restore. A. M. Bouillon .....•408
Grouting:
Marston Lake earth dike grouted to stop seepage 650
Gypsum-concrete floor slab fire test at Columbia University for United States Gypsum Co. A. H. Beyer .....•993
Lime-silica index as measure of cement quality. (See Cement.)
Old building tested for strength of flat slab shows stronger than Joint Committee rules would have indicated (warehouse in Minneapolis). W. H. Wheeler .....l 253
Proportioning. (See Concreting.)
Quay wall at Key West, Florida, repairs to spalled concrete. E. C. Siebert ....•120
Ready-mixed concrete, sale:
Birmingham, Ala., plant for producing concrete for sale, e266. W. E. Barker .....•282
School to teach concrete, by Detroit Engineering Society n339
Sea water, effect on concrete:
Los Angeles Harbor Board studies four different types of concrete piles and their resistance to destruction by sea water .....e716, •733
Pier, of transmission line tower near Mount Desert, Maine, disintegration and later protection by granite blocks laid in alumina cement. J. A. Leonard .....l•956
Strength:
High early strength:
Universal Portland Cement Co.'s five things to do to produce high early strength from ordinary portland. e266
Sulphur treatment of precast concrete units, tests of strengthening and indurating effect. W. H. Kobbe .....•940
Tests:
Manipulation of concrete, effect on strength of field concrete, tests by North Carolina State Highway Department. G. W. Hutchinson .....•246
Trolley wire arches of precast concrete, used by Detroit, Toledo & Ironton R.R. .....•313

•Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Vibrolithic concrete. Bureau of Public Roads tests 779
Water-cement. ratio. (See Concreting, proportioning.)
Workability of concrete:
Penetration method of measuring workability. Admixture concrete, penetration not satisfactory test of workability. H. H. Scofield.....l872
Slump not complete test of workability. G. A. Smith l784

CONCRETE AGGREGATES

Proportioning, weighing, etc. (See Concreting, proportioning.)
Uniform aggregate important in concrete control, paper of S. Walker before Grand Rapids Engineers' Club.....a728
Washing aggregates:
Washing machine washes aggregates free of coated impurities at high velocity (Perfect Classifier Co.)...n*591
Washing machine for sand and gravel delivers clean, de-watered product (Perfect Classifier Co.).....n*591
Concrete cribbing:
Railway retaining walls, Grand Trunk Ry. and Illinois Central R.R. designs for concrete cribbing *654

CONCRETE MIXERS

Barrel type concrete mixers at British Road Show, correction in Dec. 17, 1925 Engineering News-Record description n301
Building mixer, hoisting attachment (Chain Belt Co.) n*100
Building mixers:
Worm speed reduction used (Lakewood Engineering Co.) n*381
Loading action improved (Chain Belt Co.) n*40
Manufacturers bureau adopts by-laws..n830
Non-tilting mixer, 7-S, mounted on cross-wide trucks (T. L. Smith Co.).....n917
Pavers, water control by new water delivery system (Chain Belt Co.)....n*916

CONCRETE REINFORCEMENT

Beams, reinforced-concrete, bond and anchorage, unreliability of bond formula (paper) before Western Society of Engineers) a808
Billet reinforcing steel, Department of Commerce committee appointed to make study n466
Highways, concrete reinforcement, economic value, Highway Research Board survey 11
Standardization:
Division of Simplified Practice to consider standardization further.....n214
Concrete Reinforcing Steel Institute:
Meeting announced n381
Uniform sales contract approved.....n670

CONCRETING

Aggregates:
Uniformity of aggregates important in concrete control, paper of S. Walker before Grand Rapids Engineers' Club a728
Buggy converted to bucket for handling by crane, in building job at Birmingham, Ala. J. H. Elkins.....j*783
Cement gun, portable, requires small amount of air (Cement Gun Co.)..n*711
Concrete Mixing & Conveying Co. suit against the Ulen Contracting Corporation and the Shandaken Tunnel Corporation for infringement of McMichael patent, upheld by United States Supreme Court n960
Formwork:
Road form of steel, simple design and sturdy construction (Truscon Steel Co.) n39
Sliding forms:
Arkansas Pass, Texas, and a Missouri job, speed of moving sliding forms. J. W. MacDonald.....l206
Cuba, rapid work with moving sliding forms. C. C. FitzGerald....l*206
Harris-Newmark Building, Los Angeles, economical plant layout for concrete work. Z. Witkin.....*982
Kansas City, Mo., water-works mixing tanks and coagulating basins, concreting plant economical.....*808
Manipulation in concreting, effect on strength of field concrete. G. W. Hutchison *246
Overloading mixers, hazards of.....e431
Paving mixer operates efficiently on curb construction at Omaha, Neb.....*153
Prehydration of cement in new method of concrete mixing, developed by Carroza-Rowe Construction Co. in concreting at Montebello filter at Baltimore.*850
Proportioning:
Hopper for measuring aggregates, improved (George Haiss Mfg. Co.)..n100
Hopper strike-off for measuring sand and stone (Barber-Greene Co.)....n*40
Iowa State Highway Commission report form for inspector's use in making daily report on concrete proportions j*952
Measuring aggregates by volume, three sizes, device used on tunnel lining work for Yosemite Valley R.R. reconstruction at Merced River.....n*1031
Quicksand controlled by weighted canvas while concrete is poured, tunnel of Steel Point Power Plant in Connecticut. R. J. Reigeluth.....j1033
Sample cylinders, steel forms made on the job for testing cement, Balch hydro-electric project in California.....j*1032
Water-cement ratio in proportioning Portland Cement Association Building in Chicago built as test of specifying concrete by water-cement ratio alone e676, *698
Weighing hoppers for proportioning concrete aggregates (Butler Bin Co.) n*545
Record concreting:
Exchequer dam n174
Synchronizing of batcher-hopper used on trailer bin (Heltzel Steel Form & Iron Co.) n*710
Tower concreting plant, improvements permit use of shorter mast (Ransome Concrete Machinery Co.) n*301
Conduits:
Water supply pipe lines. (See Pipe and pipe lines: water supply.)
Conference on Highway Safety:
Meeting at Washington, and recommendations e513, m534
Conference of State Sanitary Engineers:
Meeting at Buffalo n958
Connecticut Society of Civil Engineers, meeting n337
Consolidated Cement Corporation, formed by cement companies n590

CONSTRUCTION

British Empire, construction activity under way not excessive..... 532
Cost-plus (see Contracts).
Costs:
Wyckoff Pipe & Creosoting Co. case against United States government on rising rising costs on wood block furnished to Norfolk Navy Yard, Supreme Court rules against this company 933
Day-labor construction:
Associated General Contractors, discusses day-labor construction..... 198
House of Representatives hearing....n424
Michigan construction of roads by force account including convict labor, but economy not proved.e557, *564
Public Works Contractors' Association formed at Tacoma, Wash., opposes day-labor construction n296
United States Chamber of Commerce denounces day labor n208
Equipment:
Highway equipment. (See Highway machinery.)
Purchase and sale of construction equipment. J. F. Gallagher.....n380
Force account:
Michigan construction of roads by force account, including convict labor, but economy not proved.e557, *564
Materials:
Bin for materials storage and handling, of tile (Stearns Conveyor Co.).....n963
Shortage created by new plane of demand n*592
Rain not "act of God" and no refund to contractor, at Langley Field, because of protracted rain..... 529
Shortage, real, in construction is created by new plane of demand.....n*592
Slack in construction can be taken up by public work when time of slack comes e757
Status of major engineering projects at end of 1925 84
Textbooks wanted on construction.....e968
Volume statistics for year to date follow predictions e757
Water charge for construction use at Mobile, Ala 289
Winter:
American Construction Council paper, by W. J. Lynch, on quality, progress and cost of winter work..... 312
Kenogami, Lake, in Quebec, eleven dams built, partly in winter, and cost showing, e391. A. F. Dyer..*404
Construction Division Association (Veterans of A. E. F.) meets in Washington....n423
Constructors. (See Contractors.)
Container, demountable, used on truck body (American Truck & Body Co.).....n*467

CONTRACTING

Chief of Engineers invites contract work on Missouri and Mississippi River improvements e795, n827
Force account economy compared with contract construction. (See Construction.)
Bids:
Protest of a fabricators' association against unfair bidding plans will tend toward improvement in engineers' specifications e265
Trouble with contracting, unreliable bidders become contractors overnight. A. C. Frick l500

CONTRACTORS

Bonds:
New York State:
Architect, state, would eliminate surety bonds from contracts n423, e432, 444
Construction equipment, its purchase and sale, suggestions to manufacturers. J. F. Gallagher n380
Licensing:
Associated General Contractors executive board and president's council discusses licensing of contractors at Washington meeting n825
Oklahoma wage law unconstitutional, and contractors not compelled to pay current rates n94
Pennsylvania Constructors have annual banquet n541

CONTRACTS

Cost-plus contracts, River des Peres drainage project in St. Louis, Mo., cost-plus adopted. 992
Surety bonding:
National Surety Co. adopts standard statements and questionnaires....n786
New York State architect's report on surety bond situation in New York State e432, e555
New York building law bill eliminates surety bonds n542
Time charge:
Delaware State Highway Department puts time charge in highway contracts, and speeds up construction. W. W. Mack 33
Corps of Engineers:
Jadwin, Brigadier General Edgar, nominated as chief of engineers to succeed General Harry Taylor n586
Taylor, Gen. H., retirement in June and possible successor n36

CRANES

Combination dragline, shovel, and crane (Industrial Works) n*39
Gooseneck boom on crawler crane Brown-hoist useful for light steel erection (Austin Co.) n*545
Locomotive cranes:
Storage battery power on locomotive crane (Brown Hoisting Machinery Co.) n*791
New York Central R.R. uses large cranes to increase pier capacity at New York City *118
Rail crane, self-propelled, in use on Great Northern Ry. n*962
Traveling crane with underhung hoist built for use in Africa 189
Creosoting. (See Railway track and track-work, ties; and Wood preservation.)
Cuba, highway work of great extent to start in August n742
Culverts:
Alloy steel developed for culvert use (Canton Culvert & Silo Co.).....n831
Flap gate for one-way pipe drainage (California Corrugated Culvert Co.).n*591

D

DALLAS, TEXAS.

Water supply:
Garza dam being completed 867

DAMS

Alouette dam:
Spillway channel of earth lined with concrete. C. E. Blee.....*777
Arch:
Experimental arch dam:
Progress in construction, and outline of nature of tests to be made. 494
Klamath land project, concrete arch dam with central spillway 331
Mormon Flat dam on Salt River, arch dam of thin section now in service..*778
Baker River power plant, high overflow dam at main unit *360
Brule River-dam, tests of water pressure under dam e266, *274
Calaveras dam, reconstruction by dry fill. e511, G. A. Elliott *514
Concrete:
Klamath land reclamation project, concrete arch dam with central spillway 331
Wales, Lake Eigiau dam, near Dolgarrog, failure due to washout under foundation *12
Coolidge dam on San Carlos Indian irrigation project in Arizona.
Engineers to analyze plans n588
"Multiple dome" design adopted.n785, *865
Copco No. 2 dam construction, log crib protects crusher crew from falling rock. j*658
Cruse River new dam completed.....n*999
Earth fill:
Loch Alpine Development Co. dam at Delhi, Mich., failure by shrinkage under frost crust leaving frozen bridge across breach.....*942
Pequannock River in northern New Jersey, old earth dam, description. J. A. Holmes *765
Exchequer dam:
Closure made by timber-and-concrete gates. j*418
Concreting at rapid rate.....n174
Gates closed and storage begun....n*875
Manway, roofed, for safety of operators. j*583
Failures:
Loch Alpine Development Co. earth dam at Delhi, Mich., fails by shrinkage under frost crust, leaving frozen bridge over beach.....*942
North Scituate dam, in Rhode Island, washed out. n668
Vaughn Creek dam, Tryon, N. C., failure of abutment n172
Wales, Lake Eigiau dam, near Dolgarrog, failure due to washout under foundation. *12
Francis dam in San Francisquito canyon, for Los Angeles water system, completed. n*743
Hales bar dam, asphalt grouting to eliminate seepage. G. W. Christians.*798
New tool e795
Horse Mesa dam, on Salt River in Arizona, concrete work begun.....n*950
Kenogami, Lake, in Quebec, eleven dams make storage reservoir, general outline and construction. e391, A. F. Dyer. *404
Mekinac River dam, in Quebec, work to start. n913
Mormon Flat dam, on Salt River, arch dam of thin section, now in service.*778
Nile River, two more dams to be built. 445
O'Shaughnessy dam, at Columbus, Ohio, dedicated. n828

Pequannock River in northern New Jersey, old earth dam, description. J. A. Holmes. . . . . •765
Pit River No. 3 diversion dam, baffle toe piers built, after tests by model, to dispel energy of flow. I. C. Steele. •886
Puddingstone earth-fill dam in Los Angeles County, flood damage. . . . . n•913
Sennar dam, on Blue Nile, in Egypt, completed. . . . . •316
Tests:
Brule River dam, tests of water pressure under dam. . . . . e266, •274
Wales, Lake Elgiau dam, near Dolgarrog, failure due to washout under foundation. . . . . •12
Day labor. (See Construction.)
Death records. (See Vital statistics.)

DENVER, COLO.
Engineering Societies, fourteen, protest that money is wasted on present flood control work. 806
Water Board discharge Burton Lowther, J. T. Lahey, H. A. Shipman, and C. T. Grove. n959
Water supply completed and projected work to date. 867
Deadlock delays expansion of water supply. n786
Water-works intake constructed through earth dike under service. . . . . •1010
Detours. (See Highway construction.)

DETROIT, MICH.
Bond issue of $22,000,000 for improvements, including water system and sewer extension. n912
Filter plant, experimental. . . . . j•871
Garbage plant, contractor must make changes in plant. 926, n255
Improvements, sewers, street railways, water facilities, grade separation, etc, large bond issue. n296
Paving suit deadlocked. n914
Pipe line, 83 miles, contracts let for cast-iron pipe. n297
Purchases to be made by standard specifications. n502
Sewer construction program, extensive, approved. n442
Sewerage:
$101,028,000 needed for sewerage and treatment. . . . . •112
Subway company, Detroit and Windsor Subway Co., formed to conduct construction of subway tunnel under Detroit River. n959
Water supply:
Projected work including adding 300 miles of pipe. 867
Detroit Engineering Society:
Concrete school. n339
Dippers. (See Excavating machinery.)
Ditchers and ditching. (See Excavating machinery.)

DRAINAGE
Albuquerque, N. M., cost of draining alluvial lands belonging to Pueblo Indians. 768
Missouri drainage law declared constitutional. n298
River des Peres drainage project in St. Louis, Mo., cost-plus adopted. 992

DRAWING INSTRUMENTS
Aluminum rule graduated in decimal system (Lufkin Rule Co.). . . . . n•791
Lettering guide ("normograph") for drafting work (Keuffel & Esser). . . . n•545

DREDGES AND DREDGING
Alumina cement used in repair of dredge hull, used on New York State Barge Canal. W. M. Acheson. . . . . j•581
Floating dredge, small, made from crawler mounted excavator (Bay City Dredge Works). . . . . n•261
Hydraulic dredges:
Louisiana canal work with hydraulic dredge with slow engine and speed up gear and barge aiding discharge. J. M. Allen. . . . . •196
Portland, Ore., using large diesel electric dredge in river work. . . . . •483

DRILLS AND DRILLING
Cost of diamond drill work on bridge foundation work in West Virginia. R. P. Davis. j953
Drill sharpener occupies small floor area (Sullivan Machinery Co.). . . . . n•507
Drought records. (See Rainfall and runoff.)
Dry rot endangers high school roof truss, Elkhorn, Wis. 321

E

Earth fill:
Blasting helps settle swamp fills—experience of New Jersey State Highway Department. 563
(See Dams; Highway construction; Hydraulic fill.)

EARTHQUAKES
Earthquake expectancy in California. H. D. Dewell. . . . . •114
Seismological records kept up by U. S. Coast and Geodetic Survey. E. L. Jones. . . . . •207
U. S. Coast and Geodetic Survey publishes earthquake statistics. n588
East Bay District, California, water supply. Rights to Mokelumne River water granted. n708
East Bay District, California:
Water supply development progress. 867, n874

ECONOMICS
Overcapitalizing buildings, New York City. e141
El Paso, Texas, city engineering. . . . . •980
Electrical equipment, developments during 1925, General Electric Co.'s efforts extend use of electricity in engineering field. J. Liston. . . . . n•300
Embankments. (See Dams, earth fill, and Dams, hydraulic fill.)
Engine ratings for bridge design. M. K.-T. computing tables. G. L. Staley. . . . . j•416
Engines:
Gasoline
Three to 40-hp. engines, complete line (Novo Engine Co.). . . . . n•261
Marketing problems in pump and engine field, from report by Worthington. . . . n544
Engineering:
Agricultural engineering, progress and opportunities, e1009. Q. C. Ayres. . . . •1018
Free government engineering again, see of water supply for Alexandria County, Virginia. e103

ENGINEERING EDUCATION
Armour Institute and Northwestern University combine forces. n210
Cincinnati, University of, renders six distinct services to industry. E. J. Mehren. . . . . •936
Construction not well enough represented in textbooks and education. e968
Co-operative instruction between engineering schools and industrial plants, to be discussed at meeting at University of Cincinnati. n911
Crop of new engineers from colleges about 9,000 men. e883
"English for Engineers? Never!" C. A. Bennett. 684
Interchange professorship with France, deficiency of French funds. e225
Ohio highway engineers' school. n339
Progress in the study of engineering education, extent and cost in 166 schools, salaries of engineers. W. E. Wickenden. . . . . •73
Society for Promotion of Engineering Education, annual meeting. n1037
Study of engineering education, by Professor Wickenden. P. L. Brockway. . 1460
Tennessee state university engineering course to offer practical training. . . n914
Wisconsin university establishes research fellowships. n668
Yale engineering camp to be built. n587
Engineering Ethics:
Free government engineering. D. J. Howell. 1253

ENGINEERING FOUNDATION
Adams, E. D., gift to Engineering Foundation. n873
Endowment committee for Engineering Foundation and United Engineering Society, appointed. n913
Experimental arch dam:
Progress in construction, and outline of nature of tests to be made. 494
Officers elected. n339
Research:
Blast furnace slag and dielectric absorption studies to be continued. . . n873

ENGINEERING IN SMALL CITY
Albuquerque, N. M. . . . . •694
Binghamton, N. Y. . . . . •730
Charleston, S. C., municipal port operation. 403
City engineers:
Qualifications for success and extent of service for city engineers. 402
El Paso, Texas. . . . . •980
Fargo, N. D. . . . . •152
Kalamazoo, Mich. . . . . •236
Little Rock, Ark. . . . . •442
Mobile, Ala., paving practice. 237
North Adams, Mass., new city engineer. . n296
Omaha, Neb., curb constructed with paving mixer. . . . . •152
St. Joseph, Mo. . . . . •523
Santa Barbara, Calif., building code specification for attaching masonry veneer to concrete walls, for resistance to fire and earthquake shock. N. M. Stineman. . . . . •731
Survey of engineering services in city under 100,000 and suggestions for improvement. 76
Topeka, Kansas. . . . . •769
Virginia, zoning act adopted. 731
Walla Walla, Wash., sewage-works with effluent for irrigation. 731
Waterloo, Iowa. . . . . •401
Paving cut costs computed quickly by slide rule. R. B. Slippy. . . . . •525
Water-works and sewerage systems in middle West cities. 153
Engineering Institute of Canada:
Annual meeting. n295
Walkem, George A., elected president. . n•172
ENGINEERING NEWS-RECORD
Veteran subscribers:
Roster of subscribers of 25 years or more. 213, 789
Engineering research:
Texas senator's proposal for funds to Corps of Engineers for highway research. e635

ENGINEERING SOCIETIES
Municipal associations of engineers:
Association of Engineers of New York City. F. O. Schellenberg. 1663
Associations promoting engineering betterment, American Association of Engineers doing national work. A. Richards. 1784
Los Angeles municipal association. C. Hague. 1662
Northwestern Association of Engineers organized by Oregon chapter of American Association of Engineers upon withdrawal of chapter. n296
State society meetings:
Connecticut. n337
Illinois Society of Engineers discusses technical affairs. n209
Indiana. n378
Iowa meeting, license law specially discussed. n208
Michigan. n173, n254
Minnesota engineers, architects, and surveyors meet. n257
New Jersey. n502
North Dakota. n503
Ohio. n173, n295
Wisconsin. n175, n340
Work of societies costs money. e796

ENGINEERS
Bonding of professional engineers, American Society of Civil Engineers opposed. n423
City engineers. (See Engineering in the small city: Municipal engineering.)
"Educational engineer" at Denver. J. H. Benster. 1910
Executive ability of engineers. e636
Engineering societies at New York meeting discuss engineers as executives. n668
Illinois engineers asked for political contributions for governor's defense fund. e431, n461
Income tax:
American Water Works Association committee sends circular on income tax to waterworks employees. n376
Test suit brought by American Institute of Consulting Engineers. A. Hazen. 1206
(See Metcalf & Eddy; Taxation.)
Licensing:
Buffalo, N. Y., Section of American Society of Civil Engineers seeks to promote observance of New York State licensing law. 579
Oregon, licensing law being enforced. . n254
Recess appointment can not be used to oust engineer. n97
Salary:
Judges' salary increase advocated—engineers' equally important. e141
Massachusetts engineers seek higher wages. n338
Questionnaire results do not include the facts from seasonal unemployment. A. O. Bosshard. . . . . 1•740
Sutter County, California, judge rules against remuneration to engineer because not licensed architect. e928
Tulsa, Okla, Holway, W. R., sues newspaper for libel. n708
Wall, E. E., director of public utilities, St. Louis. (See St. Louis, Mo.)
Engineers Corps. (See Corps of Engineers.)
England:
London water supply reservoir and pumping station. . . . . •200
Equipment. (See Construction; Highway Machinery; etc.)
Eriesson, John, medal established by American Society of Swedish Engineers. . n587, n627

EXCAVATING MACHINERY
Bucket for two purposes, snow handling and regular handling work (Hayward Co.). . . . . n•381
Dippers:
Railroad work special design (American Hoist & Derrick Co.). . . . . •746
Tooth sockets, wedge-shaped, integral with dipper front (Erie Steam Shovel Co.). . . . . n•467
Ditcher for excavating curb and gutter (Barber-Greene Co.). . . . . n•964
Draglines:
Combination crane, shovel and dragline (Industrial Works). . . . . n•39
Crawler unit, huge, used on 500-ton dragline (Bucyrus Co.). . . . . n•427
Excavator improved by use of crawler traction (Bay City Dredge Works.). n•508
Inclosed case for all machinery on excavator (Harnischfeger Corp.). . . . . n•41
Loader, elevating, bucket, new model (Link-Belt Co.). . . . . n•507
Pump, trench, combining suction and force action (Humphreys Mfg. Co.). . n•428
Railway ditching machine with eight-wheel drive (American Hoist & Derrick Co.). . . . . n•962
Trench excavator, light weight, improvements (Penote Co.). . . . . n•507
Trench hoe shovel attachment for excavator (Speeder Machinery Corp.). n•591
Excavation:
Earthwork quantity measurements, at Teller reservoir in Colorado. L. A. Sumner. 1872

F

Fargo, N. D., municipal engineering. . . . . •152
Fence made of scrap metal, oxyacetylene-welded, by Linde Air Products Co. . . . j•583
Finley, William H., death. . . . . n•503

FIRES AND FIRE PREVENTION
Fire hydrants. (See Water-Works.)
Keene, N. H., water supply for fire service greatly improved. 353
New Orleans, La., wharf fire loss laid largely to lack of cross fire walls. . . •447
Newport, Ark., in severe fire, concrete levee wall damaged and repair of wall. n•666, A. S. Fry. . . . . •772
Oil fields fire in West and Southwest. . . e715
Flat-slab strength increases with time. C. A. P. Turner. 336

FLOODS AND FLOOD CONTROL
Chance and fate as flood factors, and flood data for Red River of the North at Winnipeg. S. L. Moyer. 1584

•Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Denver, Colo., fourteen engineering societies protest that money is wasted on present flood control work..... 806
Flood flow, Jarvis's study extended..... 737
Forestation effects on floods, fallacies of current beliefs. J. G. Sullivan.....l 374
Forests as prevention of floods, popular fallacy e181
Kentucky cloudburst flood n296
Los Angeles County, engineers question present policy of county work...e884, 890
Mississippi River, Lower, board to be appointed to study practicability of spillway to reduce floods.....n742, n787
National Drainage Congress discussion of flood control in Southwest and elsewhere. A. S. Stinnett, W. G. Potter, R. J. Wilson, and C. A. Book.....a411
Paris district, France, flood protection plan proposed .....•773
Pueblo, Colo., project:
Soundings made by driving rails to bedrock. E. W. Lane.....j167
Status at end of 1925 84
Red River of North, at Winnipeg, chance and fate as flood factors. S. L. Moyer .....l 584
Trinity River, project near Dallas, Texas, U. S. Engineers report adversely n540
Flooring materials, relative wear tests at Mellon Institute n1042
Florida as an engineer sees it:
I—The boom itself. F. C. Wight..... •58
II—Engineering and contracting conditions. F. C. Wight..... 162
III—Railroads and ports. F. C. Wight.•243
Forestation:
Land for timber production added to United States national forests.....n665
Formulas:
Higher differences method of figuring quantities. A. Escher .....j•781

FOUNDATIONS

Commercial Cable Building, and Mutual Life Building, New York City, two early deep cellar buildings. T. K. Thomson .....l 910
Hudson Terminal building, New York City, large caisson cofferdam without temporary bracing. J. V. Davies....l 703
Piles:
Alumina cement test piles give foundation data quickly on tests for two California bridges and city hall at St. Joseph, Mo. .....j•251
Soil mechanics:
Clay and water, tests by W. Spring. Discussion. C. Terzaghi.....l 336
Test bearings, careful tests important in foundations of tall buildings. W. W. Hall .....l 500
Tests:
Bearing-power tests on deep caisson foundations, American Insurance Union Building in Columbus. R. L. Waring and C. T. Morris..... 109
Underpinning:
Frank & Seder department store, Philadelphia, difficult underpinning work in building reconstruction. W. P. Parker .....•530
Proscenium arch removal in Cleveland theater, brick wall underpinned. A. H. Taylor .....•681
Wet foundation methods for river front building, warehouse of Hibbard, Bartlett & Spencer, at Chicago.....•281
France:
Paris district, flood protection plan proposed .....•773
Franklin Institute:
Medal awarded to Samuel Rea.....n876
Fritz, John, medal presented to E. D. Adams n133, n587

G

Garages:
St. Louis, Mo., municipal market and garage, design and construction, e266, L. R. Bowen .....•268
Turning radius of automobiles as factor in designing garage doors, chart showing relation to wheelbase of car. L. Perry .....j•582

GARBAGE AND REFUSE DISPOSAL

Chicago, Ill.: tractor and trailers for refuse collection. W. J. Galligan (A.S.M.I. paper) a27
Garbage service a governmental function, by Arizona supreme court decision.... 691
Incineration:
Los Angeles, Calif., plans to build refuse incinerator n665
New York City garbage disposal methods. K. Allen .....l 253
Oakland, Calif., dumping of garbage at sea resumed .....•194
Gardner, Major W. M., body found in Mississippi River n376
Gas:
Philadelphia gas works, long municipal ownership extended by new contracts.e347
Gas mains:
Omaha, Neb., economies in laying cast-iron gas and water mains. H. V. Krouse a242
Gates:
Crest and sluice, weights computed from tables. D. V. C. Birrell.....j•499
Flap gate for one-way pipe drainage (California Corrugated Culvert Co.).n•591
Geological Congress, International, to be held at Madrid n666
Gillespie, T. A., death n257
Glacial movement on Mount Hood, measuring .....•356
Good Roads Show. (See American Road Builders' Association.)

GRADE CROSSING ELIMINATION

California, road relocation and grade crossing elimination in many locations. .....•1025
Greensboro, N. C., new railroad station and city work eliminate several grade crossings 950
Maryland agreement between railways crossing state and highway department for railroads share in grade crossing elimination 314
New York State:
Work started on state-wide elimination as voted at election.....n708
Syracuse Grade Crossing Commission becomes state agency, in New York State n668
Grade crossings:
Paving of interlocking units for railroad and highway crossings (Philip Carey Co.) .....•917
Greek reclamation job being done by Foundation Co. n211
Grouting:
Asphalt grouting under Hales Bar dam. e795, G. W. Christians .....•798
Cement grouting. (See Cement: Concrete: Concreting.)
Guatemala, Central America, to improve water and sewer system 280
Gypsum:
Fire test of gypsum-concrete floor slab at Columbia University for United States Gypsum Co. .....•993

H

Hammers:
Sliding attachment guides steam hammer while driving steel sheeting. R. J. Reigeluth .....j•780
Hammond, J. H., given dinner n742
Hetch Hetchy project. (See Water Supply, San Francisco.)
Highway bridges. (See Bridges, Highway.)
Highway congress:
(See International Road Exhibition.)

HIGHWAY CONSTRUCTION

Bay City to Saginaw, Mich., hydraulic-fill road embankment construction ...•692
Bituminous:
Asphalt pavements, in Georgia, clayey aggregates successfully used. W. R. Neel .....j•32
Asphalt road construction, recent plant and methods (paper before Highway Officials of North Atlantic States). P. Hubbard a818
Asphalt storage system for paving contractors (Simplicity System Co.) ..n•747
Brick:
Illinois, high standard brick paving in Knox County road .....•24
California, widening and thickening paved roads e1, R. M. Morton and N. A. Bowers .....•6
Chalk line not used enough e432
Concrete:
Aggregates:
Weighed aggregates, Illinois records in road construction W. E. Barker .....•440
Bridge approach fills, supporting pavement slabs. Wisconsin practice. F. M. Balsley .....j•31
Corners of slab, spalling prevented. P. E. Harley .....j•30
Fort Snelling-Mendota (Minn.) bridge approach roads, concrete pavement detailed as a floor is detailed ..e512, W. H. Wheeler .....•518
Hauling costs on concrete paving, formulas and tables. J. L. Harrison 762
Michigan construction of paved roads by force account, including convict labor .....e557, •564
Slag base course, Hocking Valley, Ohio, cost data and procedure in placing. O. W. Gatchell 30
Tamper for finishing road shoulders..j•658
Thickness of pavement checked by readings, method used by Illinois Highway Department. C. M. Hathaway .....j•165
Yardages for concrete roads in 1925, increase over other years n259
Connecticut, reconstruction of roads present greatest highway problem...e635
Curb constructed with paving mixer at Omaha, Neb. .....•153
Curves:
Mechanical road finisher used for widened and flattened curves, in Missouri. E. W. Gotwals .....j•580
Delaware State Highway Department puts time charge in highway contracts and speeds up execution. W. W. Mack ... j33
Detours:
Connecticut, detour cost in 1925 517
Missouri detour information signs. B. H. Piepmeier .....j•29
Detroit-Pontiac eight-lane highway, construction .....e348, •350
Drainage of roadbed:
Perforated galvanized iron pipe for culverts for roadbed drainage (Armco Culvert and Flume Manufacturers' Association). .....n•342
Fills:
Water jets consolidate road fills, Illinois practice .....e391, C. M. Hathaway j417
Finishing:
Curves, widened and flattened, finished by use of mechanical road finished. E. W. Gotwals .....j•580
Georgia, asphalt pavement, clayey aggregates successfully used. W. R. Neel j•32
Georgia Highway Department, equipment performance data accurately kept ..j•497
Grading:
Closeness of grading of subgrade affects cost of concreting o675
Gravel roads:
Surfacing of gravel roads cheaply with asphalt in Michigan .....•14
Hydraulic-fill road embankment construction on road from Bay City to Saginaw, Mich. .....•692
Illinois 1926 program lags behind 1925 n340
Iowa State Highway Commission's form for making daily report on concrete proportions j962
Joints:
Flexible paving joints (Ficklen & Co.) n963
Groover replaces longitudinal separator strips devised by division engineer of California State Highway Commission. W. D. Eaton .....j•955
King County, Washington, easy-riding road secured by careful office detailing for curves and intersections. G. D. Burr .....j•166
Location of highways. (See Highway location.)
Mexico, federal road system, road and bridge construction. P. K. Schuyler ..•858
Michigan, force account, using convict labor, in constructing state roads.e557, •564
Michigan State Highway Department, plant and field report forms on asphaltic concrete or sheet surfacing of gravel roads .....•14
Pan-American road work e471
Seattle, Wash., center joints reduce cracking in pavements. W. H. Tiedeman ..•646
South Atlantic and Gulf States:
V—Florida. F. C. Wight .....•20
VI—Louisiana. J. W. Shaver .....•192
Squeegee for applying bituminous filler on highway work. (Littleford Bros.) ..n•39
Unloading plant practice on road work as reported by an Illinois contractor from information gathered by questionnaire. R. P. Peterson .....•278
Water jets consolidate road fills. e391, C. H. Hathaway j417
Widening and thicking paved roads in California .....e1, R. M. Morton and N. A. Bowers ..... •6

HIGHWAY DESIGN

Concrete:
Detailing concrete pavement as a floor is detailed, on Fort Snelling-Mendota (Minn.) bridge approach roads e512, W. H. Wheeler .....•518
Superelevation on pavement curves figured by simple method. R. T. Brown 32
Curves, banked, parabolic section, concave preferred. C. J. Myers 134
Curve treatment at intersections to secure easy riding road, King County, Washington. G. D. Burr .....j•166
Curves:
Vertical curves, application to highway design. M. W. Furr .....•819
Highway detours. (See Highway construction.)

HIGHWAY ECONOMICS

Arkansas state highway organization, progress toward sanity in road improvements .....•724
Contracting, highway, what is the matter e141, A. R. Hirst a150
Expenditure for rural roads in 1926 in United States, to be over a billion dollars e472, n502
Federal aid funds:
Apportionment of $73,125,000 for year beginning July 1, 1926 ..... n36
Common roads received large portion of funds, 1916 to 1925.....e716
House committee recommends funds for two coming years n338
Senate passes bill appropriating $165,000,000. .....n1000
Hauling costs on concrete paving, formulas and tables. J. L. Harrison 762
Illinois, obstacle to $100,000,000 road fund removed. n998
Missouri, no more road bonds, but improvement from current income ..o635
New York State, maintenance of roads, costs for ten years..... 979
Ontario increases amount of road building fund. n999
Time charge on Delaware road contracts speeds up execution. W. W. Mack .. j33
Highway exhibits:
International road exhibit to be held in Buenos Aires n506
Highway location:
California, road relocation and grade crossing elimination, in many localities. .....•1025
California sand dunes, new plan of road location 197
Missouri legislative road location, can be changed by state highway commission n25
Pennsylvania, highway relocation practice, paper read at meeting of American Road Builders' Association .....e226, W. W. Crosby .....a•232
Highway legislation:
Texas road construction district law found unconstitutional in U. S. Supreme Court n96

HIGHWAY MACHINERY

Excavator used effectively in concrete road demolition .....j•659
Finishing machines:
Screed, tamper and belt combined in finishing machine (Lakewood Engineering Co.) .....n•467

Fordson powered equipment for road work (Gallion Iron Works) n*1003
Good Roads Show exhibit report n*39, e101, n136, n176
Graders:
Elevating grader, end-loading (Western Wheeled Scraper Co.) n*41
Heavy-duty grader (Western Road Machinery Co.) n*40
Leaning wheel grader, one-man, attaches to tractor (J. D. Adams & Co.) n467
Motor grader, scarifier and blade controlled by power (Good Roads Machinery Co.) n*508
Patrol grader operated from tractor power take-off (Stockland Road Machinery Co.) n*501
Hadfield-Penfield Co., new equipment n*1004
Loader, elevating bucket, for sand handling on road jobs (Barber-Greene Co.) n*747
(See Loaders.)
Pavers:
Heavy duty 27 E paver has new automatic features (Koehring Co.) n*99
Rollers:
Fordson roller, convertible, three sizes n*1043
Steel-plate frame of ¼ in. steel on heavy duty road roller (Galion Iron Works & Mfg. Co.) n*710
Tandem roller, gasoline engine (Galion) n*1042
Sanding icy and wet hills, machine (Public Service Transportation Co.) n*790
Trends in equipment shown by exhibit at Good Roads Show e101, n136
Unloading plant practice on road work. (See Highway construction.)
"Working exhibit" of highway construction outfit exhibited at Road Show (Universal Crane Co.) n*302
(See Concrete; Concreting, formwork; Cranes; Draglines; Excavating machinery; Locomotives; Shovels; Snow removal; etc.)

HIGHWAY MAINTENANCE

Magnet on truck picks scrap from gravel road, in Idaho j*29
New York State, ten years' road maintenance costs 979
Truck with complete equipment for road repair and maintenance, developed by Fageol Motors Co., in California j*582
Highway marking:
Brass "spots" used for permanent marking of roads and streets (Bridgeport Brass Co.) n*260
Cost of traffic line marking with marker built on the job, Santa Ana district in California j*780

HIGHWAY RESEARCH

Advisory Board on Highway Research. (See Advisory Board on Highway Research.)
Bills introduction Senate and House providing for highway research by Corps of Engineers n666
Earth road research undertaken by Advisory Board on Highway Research e2
Reinforcement in concrete roads, economic value, Highway Research Board survey 11
Texas senator's proposal for funds to Corps of Engineers for highway research e635
Highway Safety Conference:
Meeting at Washington, and recommendations e513, 534
Results throughout the country—selling highway safety e757
Highway signs:
Telephone boxes used as sign posts in Great Britain n544
Highway traffic:
Western Society of Engineers holds highway transport conference n706
(See Cities; Streets; but chiefly, Traffic.)

HIGHWAYS

Arkansas makes progress toward sanity in road improvements *724
Bay City to Saginaw, Mich., road embankment construction by hydraulic fill .. *692
Brick:
Illinois, high standard brick paving in Knox County road *24
Concrete:
Mileages, by states, of concrete pavement in United States n426
Reinforcement in concrete roads, economic value, Highway Research Board survey 11
Thickness of pavement. (See Highway construction.)
Widening and thickening paved roads in California el. ....R. M. Morton and N. A. Bowers *6
Cuba, extensive work to start in August n742
Detroit-Pontiac eight-lane highway, construction e348, *350
Federal system, definition and opposition to it e142
Florida, highway progress, development of state department. F. C. Wight ... *20
Good roads essay. (See American Road Builders' Association.)
Gravel roads:
Surfacing of gravel roads in Michigan, with asphalt *14
Japan, 287-mile highway, work to start soon n744
Los Angeles district, highway location joint committee unifies many interests 653
Mexico, federal road system makes progress. P. K. Schuyler *856
Pacific Coast north-and-south trunk highways paralleling coast, proposed in bill introduced in Congress n256
Porto Rico, highway types and upkeep costs ..... e883, F. Lavis *892
Safety conference:
Meeting at Washington, and recommendations e513, 534
South Atlantic and Gulf States, highway progress:
V—Florida. F. C. Wight *20
VI—Louisiana. J. W. Sharer 192
Superhighways:
Detroit-Pontiac road, eight-lane, construction procedure e348, *350
Trends on highway development—an editorial review 4
Widening and thickening paved roads in California el. .....R. M. Morton and N. A. Bowers *6

HOISTS AND HOISTING

Air compressor and hoist combined Schramm Inc. n*963
Air hoist designed for use with portable compressor (Ingersoll-Rand Co.) n*671
Gasoline hoists:
Gear drive instead of chain drive on gasoline hoist (American Hoist & Derrick Co.) n*215
Mast hoisting plant, large size bucket (Insley Mfg. Co.) n*791
Oil-operated under-body hoist, new features (Heil Co.) n*506
Three-speed sliding gear transmission on hoists (Mundy Hoisting Engine Co.) n*831
Tractor-mounted hoist and derrick for use in light work (Consolidated Telephone & Electric Subway Co. using) .n*262
Holway, W. R., sues newspaper on libel charge n708
Housing:
New York State housing bill becomes law n829
Hydraulic fill:
Alouette dam in British Columbia built by car-dumped fill, semi-hydraulic method. C. E. Blee *696
Bay City-Saginaw road, in Michigan, embankment constructed by hydraulic fill e675, *692

HYDRAULICS

Baffle toe piers built to dispel energy of flow at Pit River No. 3 dam, after tests by use of model. I. C. Steele .. *886
Cast-iron water mains:
Flow tests in old cast-iron water mains, downward trend in proportion to age. W. M. Olson ..... l 584
Current strengths in tidal basin entrances, formulas for determination. H. A. Marmer 656
Kutter's *n*, chart for converting into Hazen and Williams' *C*. R. deL. French and F. M. Wood j*870
Reservoirs, for river regulation, operation, and study of mass diagrams made from flow records. M. D. Casler *812
Scobey and Hazen formules for *C* and formula for Kutter's *n* compared in tests of flow in 54-in. concrete conduit at Denver, Colo. *678
Slide rule, adapted, for computing flow in pipes to open channels. J. B. Lippincott j*658
Turbines. (See Turbines.)
Water mains:
Flow tests of old cast-iron mains, Chicago water-works. J. B. Eddy *287
Weir-stick for use on narrow canals or streams, developed for work on Salt River irrigation project in Arizona. T. A. Hayden *850

HYDRO-ELECTRIC POWER

Applications:
Holston River in Tennessee n37
Big Creek 2-A plant, impulse units under 2,419-ft. head to develop 60,000-hp. n588
Brule River dam, tests of water pressure under dam e266, *274
Chelan River to be developed n588
Conowingo project:
Maryland and Pennsylvania approve project n134
Control of public water for public, power and irrigation use is government's business, statement of Owen D. Young at meeting of National Electric Light Association e837
Cooler system for generator fin type air-surface cooler to be used at Louisville plant on Ohio River n297
Current River, Missouri, studies finished and permit to be recommended n256
Exhibition of hydraulic power to be held at Basle. n171
Flathead reservation irrigation project, funds asked by Indian Service n297
Gatineau River, Ontario, storage and power development n424
Intake rack openings decreased by use of reinforcing bars, Copco No. 2 plant in California j498
Mystic Lake project, Montana, tunnel taps lake below water surface *642
New River, report on development or resources returned to Chief of Engineers n588
New York State:
Controversy over state-owned or privately developed power e226
Lower Niagara River Power & Water Supply Co., and American Superfower Corporation, applications to be considered n743
Oak Grove unit on Portland Electric Power Co. system, efficiency test on high-head reaction turbine *18
Ontario Hydro-Electric Power Commission to purchase power from Gatineau Co. n705
Ottawa River, power possibilities to be studied by joint Ontario and Quebec board n741
Permits:
Conowingo project receives federal license n338
Elwha River development license granted to Northwestern Power & Light Co. n826
Osage River, plant near Bagnell, Mo., to be built by Missouri Hydro-Electric Power Co. 926, n255
Pit River development. (See Hydro-electric power, Plants.)
Plants:
Baker River power plant, high overflow dam at main unit *360
Balch plant in California:
Tunnel work, air lift replaces sidings for exchange of cars j*954
Big Creek No. 2-A plant, impulse turbines of record capacity under high head n742
Black Eagle power plant on Missouri River in Montana, propeller type runners n744
Copco No. 2 plant, in California, openings in intake rack decreased by use of reinforcing bars j498
Copco No. 2 plant, turbine runners replaced quickly after failure 764
Grand Falls, N. B., power plant, work to be resumed n827
Isle Maligne plant, status at end of 1925 85
Nipigon River, Ontario Hydro-Electric Power Commission to build second plant n255
Pit No. 3 plant:
Penstock manifold and anchorage combined *728
Volcanic formations govern design in Pit River 3 hydro development. W. Dreyer *144
Pit No. 4 project, works well under way n667
Scroll cases, plate steel, infringement suit of Allis-Chalmers against Columbus Electric & Power Co., court decision in favor of defendant n298
Quebec, province, export of power prohibited by provincial legislature n541
Rogue River in Oregon, water power resources 865
St. Lawrence River power:
Two-stage development plan presented to New York State Commission ... n786
Salt River, water power developments existing and projected, and financial status. *978
South Platte River, Denver plans power and storage projects. n1001
Steel Point power plant in Connecticut, tunnel concreting in quicksand aided by weighted canvas to control quicksand. R. J. Reigeluth. j1033
Survey throughout the country opposed by American Engineering Council n741
Tidal power:
Passamaquoddy Bay development permit granted to D. P. Cooper of Eastport, Me. n827
Trinity River project, near Dallas, Texas. U. S. Engineer's report adversely.... n540
Transmission lines:
Airplane survey of line from Ottawa to western Ontario n913
Mount Desert, Maine, transmission line tower pier in sea water, concrete disintegrated and later protected by granite blocks laid in alumina cement. J. A. Leonard ..... l *956
Turbines. (See turbines.)
Hydro-electric power:
World Power Conference. (See World Power Conference.)

I

Illinois governor's defense fund, engineers of state asked for political contributions e431, n461
Illinois waterway, construction status at end of 1925 84

Water supply:
Colorado River development progress.. 867
Los Angeles County:
Flood control policy questioned by engineers e884, 789
Sewage disposal:
Ocean outfall favored in report of X. H. Goodnough, consulting engineer n708
Louisiana, highway progress. J. W. Shaver 192
Louisville, Ky., charter again proposed....n424
Ludington, Mich., breakwater damaged by winter storm .....n•587
Lumber:
Knot-hole plugs screwed in improve grade of lumber n746

M

Malaria:
Mosquito control cuts malaria in Memphis 689
Manholes:
Ditcher, Barber-Greene, digging manhole on work for Pacific Gas & Electric Co. in California .....j•783
Marburg lecture, Prof. A. N. Talbot first to lecture n462
Marine Borers:
Teredos destroy timber structure rapidly in San Francisco Bay 200
Materials:
Canadian materials prices and labor rates n793
Stone, slate, granite, marble, sandstone, etc., permeability measured at Bureau of Standards 281
Mead, Dr. E., commissioner of reclamation, given $10,000 salary n874
Medals:
Ericson, John, medal established.....n587
Fritz, John, medal presented to E. D. Adams n587
Memphis Engineers' Club to build memorial hall n338

METALS
"Shenandoah" disaster:
Duralumin, deterioration, Embrittlement a serious problem, A. S. Niles, Jr. 134
Naval Court of Inquiry, report..... e1
Specifications for metals and textiles, American Society for Testing Materials discusses better specifications... 495
Steel, reinforcing, for concrete. (See Concrete reinforcement.)
Wire and sheet metal gages to be subject of conference of Engineering Standards Committee and other organizations...n379
Wire and sheet metal gages, simplification n466, n506
Metcalf & Eddy, Boston, Mass., reorganization n423
Metcalf & Eddy lose income tax suit on appeal n97, e102
Metcalf, Leonard, death e181, n210
Appreciations of work and character, Allen Hazen, Harrison P. Eddy, Charles W. Sherman and George W. Fuller .....l 252
Metric system, bill for restricted use fails in the Senate n787
Michigan engineering societies conference holds record meeting n254
Michigan Engineers' conference n173
Milwaukee, Wis.:
Activated sludge plant, tuning-up difficulties and methods of eliminating troubles, T. C. Hatton .....•446
Civil Alliance reorganized n874
Tenement restriction lessening ordinance vetoed by mayor n828
Minnesota engineers, architects, and surveyors meet n257
Montreal, Quebec:
Tunnel under St. Lawrence, opposed, by Quebec province legislature n586
Motion pictures of asphalt paving loaned by the Texas Co. n381
Motion pictures of wrought-iron pipe manufacture educational film (National Tube Co.). n1004
Motor registrations in United States as showing where paving programs are needed. .....n•1005

MOTOR TRUCKS
Demountable truck body for separate container system (American Truck & Body Co.) .....n•467
Dump truck, heavy duty, many refinements (White Co.) .....n•544
Equipment distributor adds repair shop to service (E. Ehrbar) .....n•746
Industry had record year in 1925.....n214
Record output in 1925 .....n916
Motor vehicles:
Production in 1925, 4,325,000.....n99
Mount Hood, measuring glacial movement .•356
Use of ship carpenter's slick with tee for drilling holes in ice .....j•783

MUNICIPAL ENGINEERING
Cincinnati, Ohio, old campaign for municipal ownership of water-work..... 443
Engineer-managers in small municipalities e348
Gary, Ind., city engineer's report shows that lack of improvement program greatly increased cost of public works. 233
Income tax, Metcalf & Eddy lose suit on appeal n97, e102
Private practice in addition to municipal work of city engineers, effect on salary and standing.. J. W. Meehan.....l 374
San Francisco, railway, street, municipally-owned and managed, costs can not be ascertained, "W" 1740, M. M. O'Shaughnessy .....l 872
Seattle, Wash., proposed charged centralizes engineering work n667
(See Engineering in the small city.)
Minneapolis, Minn., charter proposed goes back to checks and balances in manager plan e929

MUNICIPAL GOVERNMENT
Annexation as means of enlargment of cities—case of Moline and East Moline, Ill. e2
New York State villages given more power n742
Waco, Texas, adopts commission-manager form of government n256

MUNICIPAL IMPROVEMENTS
Baltimore, Md., viaduct 816 ft. long being constructed by city n742
Virginia law forbidding assessment of benefits against abbutting lands e675
Municipal ownership:
Cincinnati, Ohio, old campaign for municipal ownership of water-works... 443
Philadelphia gas works, long municipal ownership extended by new contracts..e347

MUSCLE SHOALS
Bids:
Doubts as to whether any company will offer bid to develop 40,000 tons of nitrogen n558
Muscle Shoals Fertilizer Co. and Muscle Shoals Power Distributing Co. joint bid recommended by majority of joint congressional committee n707
Nine bids submitted to Congressional committee n666
Congressional insufficiency on business side of handling Muscle Shoals output.e757
Construction status at end of 1925 85
Leasing bill passed by Congress n421
Mussolini a city planner e636

N

Nashville, Tenn.
Water supply development progress..... 866
National Conference on Street and Highway Safety:
Second annual meeting, promise of help toward relief of traffic congestion....e225
National Drainage Congress:
Annual meeting, and discussion of flood control in Southwest and elsewhere, A. S. Stinnett, W. G. Potter, R. J. Wilson and C. A. Book a411
Annual meeting, water conservation discussed n171
National Fire Protection Association:
Annual meeting and discussion of safety provisions n825
National Industrial Conference Board:
Anniversary meeting, tenth n875
National Lime Association, annual convention at French Lick.....n1001
National Paving Brick Manufacturers' Association, annual meeting n178
National Surety Co. adopts standard statements and questionnaires n786
Nature best used in works for man's service.e968
New England, second annual outdoor road show n710

NEW ENGLAND WATER WORKS ASSOCIATION
Bonds or pay-as-you-go for financing water-works, discussed by C. W. Sherman at meeting 400
Boston Metropolitan District water supply, zoning advocated e432, 451, n463
New Jersey Metropolitan District
Water supply development progress..... 866
New Jersey Sewage-Works Association, meeting e512, n539
New Jersey Society of Professional Engineers meeting at Newark n502
New Jersey transit plan submitted to legislature n172

•Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

New Jersey transit relief plan proposed by committee e181, 205
New Jersey Transportation:
Closing of bridges during rush hour sought e511, n540, e636
War Department position. H. Taylor 1662
New Jersey water boards, and governor's conference e305
New Jersey Water Policy Commission:
Report submitted to state legislature... n379
New Orleans, La.
Wharf fire loss laid largely to lack of cross fire walls *477
New York Building Congress:
Wiser building discussed by Franklin D. Roosevelt n593

NEW YORK CITY
Bridges, Port Authority control, status at end of 1925 85
Building Construction:
Poor building does not include steelwork—structural steelwork defended. C. L. Eidlitz 134
Building law to prevent incompetent building e142
City planning and survey committee of 475 members appointed n998
Ferries privately built and operated to be run on Hudson River between Manhattan and New Jersey e511
Garbage and refuse disposal methods. K. Allen 1253
Milk supply dilution is alleged e555
Milk supply investigations—water in the wrong place e555
New Jersey transportation, closing of bridges during rush hour sought e511, n540, e636
War Department position. H. Taylor. 1662
Rapid Transit:
New York State Suburban Passenger Transit Commission and Westchester County Transit Commission, reports. 738
Regional Plan:
Communities' representatives hear progress report at meeting e884, n911
Subways:
Third subway system for New York. Community needs increase e968
General plan, complicating features and types of construction *970
Queensboro extension, Fifth Avenue station opened n504
Status at end of 1925 85
Transportation:
Regional Plan of New York and Its Environs. Transit-transportation report 367
Traffic:
Drawbridge closing during rush hour sought e511, n540, e536
War Department rulings on Passaic River drawbridge closing during rush traffic. Taylor 1662
Traffic relief committee makes report. n135
Traffic relief recommendations—report of Advisory Committee to Board of Estimate and Apportionment 286
Water Supply:
Catskill system practically completed.. 866
Status at end of 1925 85
West Side Improvement:
Elevated highway, 72nd to Canal St., enabling act passed n667
Plan for four-mile elevated structure from 72nd to Canal St. approved n873

NEW YORK PORT AUTHORITY
Bridge bond sale, fourteen millions sale is high credit rating e392
Bridge work, status at end of 1925 85
Bridges over Hudson River, studies, plans, bonds, etc. (See Bridges, Hudson River.)
Reorganization n504
New York sanitary engineers and waterworks men have joint luncheon n174
New York Society of Professional Engineers and Land Surveyors, organization n786

NEW YORK STATE
Architect, state, would eliminate surety bonds from contracts n423, e432, 444
Government reorganization:
Improvement will be general, but state engineer's status not made definite. e393
Plan submitted to state legislature... n378
Public Works Department, reorganization bill signed n668
Housing bill becomes law n829
Transit Commission:
Officers appointed n665
Villages given more power n742
Niagara Control Board:
United States representatives, Jones, Major D. C., named n707
Niagara Falls:
Erosion of crest:
Canadian and United States measures planned to check the erosion n297
Niagara Control Board to prepare engineering report on checking erosion.. n957
Niles, Ohio, and Youngstown, joint water supply projected n585
Norfolk Navy Yard wood block case. (See Construction, Costs.)
North Adams, Mass., new city engineer.... n296
North Dakota Society of Engineers meeting. n503

O

Oakland, Calif., water supply. (See East Bay district: Water supply, East Bay District.)
Ohio Engineering Society convention n173, n295

P

Paint and Painting:
Hiding power of paint, measuring tests by U. S. Bureau of Standards n670
Zinc dust painting, research bulletin of New Jersey Zinc Co. n790
Paramount Theater, New York City, erection of large trusses, by traveler *454
Paris, France:
Flood protection plan proposed for Paris district *773
Traffic relief, competition to be held to develop plans n295
Parliamentary law and procedure, can get too uch of it e181

PATENTS
Chlorinator, Wallace & Tiernan patent upheld, in case against Paradon Engineering Co. n878
Concrete Mixing & Conveying Co. suit against the Ulen Contracting Corporation and the Shandaken Tunnel Corporation for infringement of McMichael patent, patent upheld by United States Supreme Court n960
Precedent builds up patent e1007

PAVEMENTS AND PAVING
Asphalt:
Brick and asphalt pavement costs compared for many years, Columbus, Ohio. R. H. Simpson *480
Moving picture films loaned, by The Texas Co. n381
Storage system for asphalt paving contractors (Simplicity System Co.) n*747
Brick:
Asphalt and brick pavement costs compared for many years, Columbus, Ohio. R. H. Simpson *480
Concrete:
Hauling costs on concrete paving, formlas and tables. J. L. Harrison.... 762
Cutting of pavements for repairs to utilities, computation by slide rule at Waterloo, Iowa. R. B. Slippy *525
Inspection of pavement construction, two devices. L. B. Anderson j250
Mobile, Alabama, paving practice 237
San Francisco, Calif., streets and steep grade, construction problems j*249
Seattle, Wash., center joints reduce cracking in pavements. W. H. Tiedeman.. *646
Tire chains, effect on pavements, comment on wearing surfaces for concrete bridge floor slabs. E. S. Ross and E. F. Kelley 1460
Washington, D. C., buses discover rough places in pavements e555
Wood-block paving, unit price tabulation.. n672
(See Highways.)
Pennell, Joseph, death means loss of one who discovered the beautiful in construction e715
Pennsylvania constructors have annual banquet n541
Pennsylvania R.R. (See Railways, Pennsylvania.)
Pennsylvania State College holds seventh industrial conference n707

PENSTOCKS
Pit No. 3 Penstock:
Manifold and anchorage combined.... *728
Self-supporting arched penstock in river crossing, in France j*498
Persian government will employ American railway expert n586

PHILADELPHIA, PA.
Gas works, long municipal ownership extended by new contracts e347
Philadelphia-Camden bridge. (See Bridges, Philadelphia-Camden.)
Sesquicentennial:
Delay in construction, and why an exposition anyhow e883
Subways, status at end of 1925 85
Water Bureau men dismissed by mayor. n463
Water supply development progress 866

PIERS
Concrete piers in sea water. (See Concrete.)
Cranes of large size increase capacity of New York Central pier at New York City *118
Ludington, Mich., storm and ice damage breakwater n*587
New Orleans, La., wharf fire loss laid largely to lack of cross fire walls.... *447
Quay wall at Key West, Florida, repairs to spalled concrete. E. C. Siebert.... *120
San Francisco, two new piers to cost $2,000,000 ..... n744
Toe piers at toe of dams. (See dams.)
Pile hammer used to break up concrete in rapid building demolition, New York City j*415.

PILES AND PILEDRIVING
Alumina cement piles give foundation data quickly, tests for two California bridges and for city hall at St. Joseph, Mo. j*251
Concrete piles:
Sea water effect on concrete piles
Los Angeles Harbor Board studies four types of concrete piles and their resistance to sea water e716, *733
Cutoff piles, Wakefield sheeting, uncovered by overtopping of reservoir in the Southwest. j*1032
Frictional resistance of piles tested by hydraulic press on bridge erection for Swedish state railway bridge j*955
Oakland, Calif., experiences driving piles through water-bearing sand for support of Southern Pacific R.R. over estuary subway approach. L. M. King j*782
St. Louis water intake:
Underwater piledriving and cofferdam sealing for intake at Howard Bend. John C. Pritchard *930
Thrust pressure induced by pile driving, question presented for discussion. G. N. Smith j*740

PIPE AND PIPE LINES
Cast-iron pipe:
Concrete-lined pipe, Belmont, Mass., buys and lays $60,000 worth 487
Sectional committee of American Engineering Standards Committee holds organization meeting n706
Standards to be studied by new joint committee of four societies... e348, n375
Steel-banded cast-iron pipe introduced into United States from foundries in Nancy, France n*878
Cement-asbestos pipe, hydraulic tests at University of Pennsylvania. W. S. Pardoe j*169
Cement-lined wrought-iron pipe laid in 1871 at Charleston, Mass., now part of Boston, and still in use 569
Copper service pipe for water supply. (See Water mains.)
Culvert pipe, cast-iron, made in two half-round sections (Alabama Pipe Co.).. n*711
Culvert pipe, cast-iron, with spiral corrugations (American Casting Co.) n*428
Denver, Colo., concrete conduit, 54-in., flow of water tests for Scobey and Hazen C and Kutter's n. F. C. Scobey*678
Design of pipe lines for water-works: Economical design, 926. J. W. Ledoux. j250
Detroit, Mich., contracts for 83 miles of centrifugal cast-iron pipe n207
Drilling standard for pipe holds two drills, device used in China. W. W. Monk j*871
Gates:
Flap gate for one-way pipe drainage (California Corrugated Culvert Co.) n*591
Iron pipe:
Perforated galvanized iron pipe for culverts, for roadbed drainage (Armco Culverts and Flume Manufacturers Association) n*342
Joints:
Hydraulic joint, a new design, flexible under pressure (Victaulic Co.).... n*215
Old cement-lined wrought-iron pipe in good condition after half a century, Boston metropolitan water system.... 569
Omaha, Neb., economies in laying cast-iron water and gas mains. H. V. Knouse a242
Penstocks. (See Penstocks.)
Providence, R. I., water supply aqueduct.
Construction of steel portion. B. F. Snow *159
Buckling of pipe. A. H. Reeves and B. F. Snow 1663
Riveted pipe in San Francisco waterworks system, length of service, cost and advantages. G. W. Pracy *844
San Francisco water supply line:
Newark Slough 42-in. section tests low leakage 909
Sewer pipe. (See Sewers.)
Spiral pipe uses flanged lock seam instead of rivets (Naylor Spiral Pipe Co.)... n*880
Steel pipe, distribution by states n673
Tacoma, Wash., water supply conduit, life of different sections plotted. W. A. Kunigk *562
Tacoma, Wash., wood stave pipe line, life of pipe sections plotted. W. A. Kunigk*562
Wedford, Ore., water supply, electrically welded pipe used n540
Pittsburgh, Pa.:
Bond issue voted for improvements on water-works, sewers, bridges, streets, highways, buildings n876
Plaster:
Colored finish plaster (U. S. Gypsum Co.).n916
Portland, Ore:
Water supply development progress..... 867
Porto Rico, highway types and upkeep costs. e883. F. Lavis *892

PORTS AND HARBORS
Albany, N. Y., Hudson River port project, work starts n826
Calumet harbor project, for Chicago, checked n255
Charleston, S. C., municipal port operation 403
Chicago, Ill., Commercial Club to make port plan n172
Chicago, Ill., Major R. W. Putnam to make harbor survey n786
Ludington, Mich., ice and storm damage breakwater n*587
Portland, Ore., dredge, large diesel electric, used in river work *483
Quays. (See Quays.)
Providence, R. I.:
Water supply:
Aqueduct. (See Pipe and pipe lines.)
Water supply development progress.. 866

PRICES
Unit price tabulation:
Waterproofing for subways n633
Wood block paving n672

PUBLIC HEALTH
American Health Congress meeting announced n296
Arkansas health aided by "better health special" train run by Missouri Pacific R.R. *948
Public works in cities. (See Municipal engineering: Municipal improvements.)

PUMPS AND PUMPING
Centrifugal pumps:
High speed centrifugal pumps (Allis-Chalmers Mfg. Co.) *878

Steam-turbine-driven centrifugal pumps, efficiency (DeLaval Steam Turbine Co.) n880
Diaphragm pump, all gearing inclosed (Novo Engine Co.) n*670
Hannibal, Mo., pumping and filtration plants. M. P. Hatcher *727
Marketing problems in pump and engine field, given out by Washington n544
Pumping stations for water supply. (See Water-works, pumping stations.)
Sand pumps use renewable liners (Krogh Pump & Machinery Co.) n*711
Trench pump, combining suction and force action (Humphreys Mfg. Co.) .*428
Western Ave. pumping station, Chicago. (See Chicago, Ill.: Water-works.)
Putnam, Major R. W., to make harbor survey at Chicago n786

Q

Quantities figured by use of higher differences. A. Escher j*781
Quantity surveys increasing in number ... e927
Quantity Surveyors, Institute of, organized, to meet in Chicago n588, n828
Quay of reinforced concrete built to carry 50-ft. pile of rock on Buffalo River ... *976
Quay wall at Key West, Florida, repairs to spalled concrete. E. C. Siebert *120

R

Rail and water terminals:
Terminals and towboats for inland navigation, paper presented at meeting of Society of Naval Architects 482
Railway accidents:
Pennsylvania R.R. wreck e1008, n1039
Railway cars:
Capstan, vertical, electric operation, for spotting railway cars (Caldwell & Son Co.) n*746
Steel passenger cars in England, with central corridor and individual lighting 939
Railway construction:
Railway construction in 1925 107
Railway construction, recent and prospective *308
Railway devices:
Mail exchanging apparatus (Spokane Mail Equipment Co.) n*343
Railway ditching machine with eight-wheel drive (American Hoist & Derrick Co.) .n*962
Railway economics:
Railway Labor Board abolished e837
Saner rail financing will ensue from disapproval of Nickel Plate merger e393
Railway location:
Economics of railway relocation and improvement of grade (paper by C. A. Morse before Western Society of Engineers) a803
Railway mail exchanging apparatus (Spokane Mail Equipment Co.) n*343
Railway research e306
"Practical research" and "theoretical research," 1926 ..... e392
Railway signals and train control:
Automatic train control:
Automatic substations are increasing in size n342
Railway retaining walls:
Cellular retaining wall along Mississippi River approach to St. Paul union station *768

RAILWAY STATIONS

Automatic railway substations are increasing in size n342
Freight stations:
Double-deck freight station for London & Northeastern Ry., London, England 536
Greensboro, N. C., union station and some grade crossing eliminations 950
Illinois Central R.R. terminal at Chicago, Van Buren St. subway under Michigan Ave. for pedestrians *276
Newark, N. J., new station planned by Pennsylvania R.R. n257
Ogden, Utah, improvements to Union Station *116

RAILWAY STRUCTURES

Retaining walls:
Concrete cribbing for railway retaining walls, Grand Trunk Ry. and Illinois Central R.R. designs *654
Snow-sheds built on unit construction plan at Summit in the Sierra Nevadas, by Southern Pacific R.R. *532

RAILWAY TERMINALS

Buffalo, N. Y., new passenger terminal planned n96
Freight terminals:
Unification progress, and comparison of multiple-unit system with a series of independent parts. E. E. R. Tratman 354
Los Angeles, Calif., union depot at plaza site approved in city election n786
St. Louis, Mo., terminal for trunk-line railroads, plans agreed upon n298
Williamson, W. Va., contracts let by Norfolk & Western Ry. for large terminal improvement n97

RAILWAY TRACK AND TRACKWORK

American Railway Engineering Association paper on track construction in paved streets a807
Paving for railroad and highway crossings, new interlocking units (Philip Carey Co.) n*917
Rails:
Anchor for rails cannot be overdriven (American Fork & Hoe Co.) n*343
British tracklaying equipment lays track in complete sections j*334
Crane for rail laying, used on Great Northern Ry. n*962
Defects in rails, Japanese device for detection of faults. I. M. Suzuky .. *520
Demolition of track, push cars used effectively by Chicago, Rock Island & Pacific R.R. j334
Laying of rails:
Power plant, portable, for rail laying (Woolery Machine Co.) n791
Supporting track rails over open ditches, where culvert or other construction is being done, by device made with four rails. J. H. Sawkins j*333
Ties:
Cradle for tie lifting, operates from boom line (Hussey Mfg. Co.) n*671
Creosoting of ties:
Southern Pacific R.R. creosoting plant at Oakland, Calif., plant and processes described *318
Reclamation of ties:
Split ties reclaimed by compressed air machine made from scrap. A. Gibson j*335
Track:
Double-Y track for turning locomotives, on Italian-Austrian station, on Brenner Pass. *950

RAILWAYS

Africa, central, railway work 195
Australia, railway development 479
Bus operation by railroads investigated by Interstate Commerce Commission .. n912
Central R.R. of New Jersey:
Newark Bay bridge e471, *474
(See also Bridges, railway.)
Chicago & Western Indiana R.R. and Belt Ry. of Chicago, E. H. Lee elected president n960
Chicago, Rock Island & Pacific R.R. branch line from Liberal, Kansas, to Amarillo, Texas, authorized n826
Colombia, South America, railroad construction program 578
Consolidation:
Government control of rail financing, and proper extent of control e556
Problems of consolidation, in five years from passage of act e3
Construction:
During 1925 107
New and prospective railway construction—general statement *308
Denver & Salt Lake Ry. leases Moffat tunnel n133
Detroit, Toledo & Ironton R.R., uses precast concrete arches to carry trolley wires *313
Dodge City & Cimarron Valley Railway Co., a branch of Atchison, Topeka & Santa Fe, authorized to build line from Manter, Kansas, to near Joycoy, Colo. n998
Electrification:
Great Northern Ry. electrifies mountain section between Cascade tunnel and Skyhomish n828
Illinois Central R.R., Chicago terminal electrification. D. J. Brumley *322
India's first electrified railway *889
Pennsylvania R.R. to electrify Philadelphia lines n541
Progress during 1925 240
Elgin, Joliet & Eastern Ry., ballasted-deck plate-girder bridge is longest of kind *328
Florida 35-mile line, Hampton Springs to Deadman's Bay, proposed by Georgia Railway Co., opposed by Interstate Commerce Commission n586
Florida:
Seaboard Air Line, proposed route for west coast of Florida n340
Southern Georgia Railway Co.'s line from Hampton Springs to Deadman's Bay opposed by Interstate Commerce Commission n586
Government control of railway financing .e556
Grand Trunk Ry., retaining wall of concrete cribbing, design *654
Great Northern Ry.:
Cascade tunnel in Washington, 7¾ miles long, contract, location, program *28
Work well under way n539
Columbia River bridge of Great Northern Ry., near Wenatchee, Wash., reinforcing old bridge. H. S. Loeffler *558
Electrification of mountain section between Cascade tunnel and Skyhomish n828
Oregon Trunk Ry. (a branch) authorized n875
Hudson Bay railway, work again started n877
Illinois Central R.R.:
Chicago terminal electrification. D. J. Brumley *322
Tests of first train and opening of electric service n743
Chicago, Ill., terminal, Van Buren St. subway under Michigan Ave. for pedestrians, and train subway at flying junction *276
Retaining wall of concrete cribbing, design *654
Snow melting on terminal tracks at Chicago *486
Tunneling in rock, in southern Illinois, methods used *370
Long Island R.R.:
Improvements for 1926 call for expenditure of $11,000,000 ..... n785
Missouri Pacific R.R.:
Health promoted in Arkansas by "better health special" train *948
Narrow-gag railways of post Civil War period. E. Low 1910
New York, Chicago & St. Louis Ry. (Nickel Plate):
Merger:
Disapproved by Interstate Commerce Commission n379
Interstate Commerce Commission disapproval will result in saner railway financing e393
New York Central R.R.:
Centennial of charter Mohawk & Hudson R.R. Co. celebrated n668
Uses large cranes to increase pier capacity at New York City *118
Nickel Plate. (See Rys., New York, Chicago & St. Louis Ry.)
Northern Pacific Ry.:
Oregon Trunk Ry. (a branch) authorized n875
Ontario, northern, sixty-mile railway started 447
Oregon, California & Eastern Ry.:
Silver Lake 63-mile branch authorized n875
Oregon railroad construction authorized as compromise *1014
Panhandle extension in Texas favored .. n587
Pennsylvania R.R.:
Electrification of Philadelphia lines .. n541
Newark, N. Y., new station plan outlined n257
Wreck in Pennsylvania e1008, n1039
Philippine railway shows gain 330
Rock Island. (See Chicago, Rock Island & Pacific.)
St. Louis Connecting Railroad Co. authorized to build connection near Collinsville, Ill. n829
St. Louis-San Francisco Ry. buys the Chicago Rock Island & Pacific R.R. .. n209
St. Louis-San Francisco Railway Co. proposes 152-mile road in Mississippi .. n873
Seaboard Air Line:
Miami extension held up n787
Proposed route for west coast of Florida n340
South American transcontinental railway, Argentine to Antofagasta, Chile 1021
Southern Pacific Ry.:
Mexican west coast line, construction progress 776
Snow-sheds built on unit construction plan, at Summit in the Sierra Nevadas *532
Spruce Falls Power & Paper Co. building line from Kapuskasing to Smoky Falls and Devil Rapids n914
Truck competition against railways, and control. (See Traffic.)
Union Pacific Ry.:
Branches, two, in Nebraska to be built n877
Valuation:
Los Angeles & Salt Lake R.R., decision simplifies valuation work e1
Yosemite Valley R.R. reconstruction at Merced River, concrete aggregates measuring, three sizes, by volume .. j*1031

RAINFALL AND RUNOFF

Appalachian region, southern part, 1925 drought broke all records. E. D. Burchard *234
California dam work delayed by rains .. n665
Construction delayed by rain. (See Construction.)
Time and intensity of rainfall, curve of relation, used in design of sewers in Detroit, Mich., and curve of a July storm j*419
Correction of equation j499
Raymond, W. G., death n*1038
Refuse disposal. (See Garbage and refuse disposal.)
Regional planning:
Los Angeles district, highway location joint committee unifies many interests 653
New York City. (See New York City.)
Reports, annual, technical data excluded, two instances e472
Research. (See Engineering research; Highway research, etc.)

RESERVOIRS

Baltimore, Md., Upper Gunpowder Falls, reservoir impounds 23 billion gallons .n586
Cedar River reservoir for Seattle water supply, sealing of reservoir 278
Coolidge reservoir. (See Dams, Coolidge.)
London water supply, huge reservoir (Queen Mary) and pumping station .. *200
Malad reservoir, in Idaho, porosity prevents water storage 561
Marston Lake, supply for Denver, Colo., water, grouting of earth dike to stop seepage from reservoir 650
Open reservoirs in cities, and case of Central Park Reservoir, New York City e472
Port Angeles, ash., unique concrete lining for reservoir. M. P. Hatcher and E. L. Ferguson *859
River regulating reservoirs, operation and stud of mass diagrams made from flow records. M. D. Casler *812
Retaining walls:
Cellular retaining wall for railway fill along Mississippi River on approach to St. Paul union station *768
Concrete cribbing for railway retaining walls, Grand Trunk Ry. and Illinois Central R.R. designs *654

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Niagara River:
Niagara Falls. (See Niagara Falls.)
Sand dredging from Niagara River ordered stopped n912

RIVER CONTROL AND REGULATION

Mattresses, wire-willow mattress has advantage over basket-weave, shown in work on Missouri River between Kansas City and St. Louis. F. Y. Parker ..j*1033
Missouri River control at the new St. Louis water-works. e555, E. E. Wall *570
Ohio River regulation at Evansville 1024
Reservoirs for river regulation, operation and study of mass diagrams made from flow records. M. D. Casler *812
St. Louis, Mo., Mississippi River control to bring deep water to intake for new water-works. e555, E. E. Wall *570

RIVER EROSION AND PROTECTION

Piling and wire fencing protect stream banks near bridges, in California ...j*419
Willow bank protection, new, tried out by California highway department ...j*165

RIVER IMPROVEMENT WORK

Allegheny River work approved n911
Hudson River, Albany port project, work starts n826
Yazoo River basin survey recommended by rivers and harbors board n912

RIVERS

Allegheny River, ice jams cause much damage n503
Chicago River straightening project, agreement reached by railroads and other interests n707
Colorado River:
Apportionment of water sought by California n36
Development bill in committee n339
New York City place of discussion by financial and industrial leaders, showing national scope of problem. e225
Swing-Johnson bill:
New bill plans reservoir in Black or Boulder Canyon n35
Report by Secretary of Interior outlines policy on Colorado River development n94
Revision of bill, would raise money by large bond issue, for power and storage development, at Black Canyon or Boulder Canyon. n501
Senate irrigation and reclamation committee makes favorable report on bill n707
Delaware River:
Tri-state compact:
New Jersey water policy commission advises changes before submitting to legislature n209
Gatineau River, Ontario, storage and power development n424
Jordan, in Palestine, study of irrigation and power possibilities, by British High Commission e472
Mississippi River:
Barge line from St. Louis to St. Paul to be operated n256
Lower Mississippi:
Spillway as means to reduce floods on Lower Mississippi, board to be appointed to study practicability n742, n787
Passaic River:
Drawbridge opening for river traffic in rush hours e511, n540, e536
War Department ruling, H. Taylor..1662
Rio Grande:
Commission on Equitable Adjustment of Water Rights on the Rio Grande will meet n960
Middle Rio Grande Conservancy District project under way 522
St. Lawrence River. (See St. Lawrence River; Great Lakes; Waterways.)
San Gabriel River, in California:
Storage project, federal hearing on claims of Los Angeles and Pasadena. n501
Trinity River project, U. S. Engineers report adversely n540

RIVERS AND HARBORS

Funds for river and harbor work allotted by Congress, listed n743
Rivers and Harbors bill, House of Representatives includes disputed appropriations—pleases everybody e927

RIVETS AND RIVETING

Rivet spacing of tension members to maintain net section j*418
Rotary kiln construction, riveting and welding compared, report before American Welding Society 889
Trusses riveted and welded tested to failure by Linde Air Products Co. at Buffalo plant n*826
Welding and riveting compared with regard to development of structural strength e796
Road shows:
New England, second outdoor road-show n710
Rochester, N. Y.:
Water supply development progress.... 866
Roofs of enameled sheet steel (Vitrified Metallic Tile Roofing Co.). n1003
Rope:
Wire rope sockets, how to attach n506
Wire rope, use and care (Marion Steam Shovel Co.) n746
Rotorship, crossing to America e715
Rubber:
American Motor Rubber Corp. formed..n426
Hoover, Secretary, campaign against foreign control of products e471
Rules. (See Drawing instruments.)

S

St. Lawrence River:
Development status at end of 1925.... 85

St. Joseph, Mo., city engineering *523

ST. LOUIS, MO.

City planning:
Major street plan to be carried out..n588
Market and garage, municipal, design and construction. e266, L. R. Bowen..*268
River control, of Mississippi, to provide deep water at intake for new water-works. e555, E. E. Wall *570
River des Peres drainage project, cost plus contracts used 992
Street widening upheld by State Supreme Court n959
Terminal for trunk-line railroads, plans agreed upon n298
Traffic:
Causeway, elevated, proposed by engineers, for traffic relief 820
Wall, E. E., director of public utilities, dismissal:
Mayor's charges n421, e431, n461
Mayor discharges director of public utilities, acting on minor charges, chief charges found groundless e555, n585
St. Louis engineers, twenty-six, defend Mr. Wall 1703
Water supply:
Construction status 84, 867
Water-works:
Intake at Howard Bend on Missouri River:
Cofferdam with cellular wall built to inclose intake emplacement. e835, J. C. Pritchard *862
Piledriving and sealing of cofferdam under water. John C. Pritchard *939

St. Paul, Minn.:
Street improvement plan for $10,000,000. n913
Water supply development progess..... 867

Salaries of engineers. (See Engineers.)
Salvador, Central America, federal road system started. R. C. Hardman....*108

SAN FRANCISCO, CALIF.

Duboce tunnel for street car traffic, work under way n959
Street railway, municipally owned, costs cannot be ascertained ..... "w", 1740
Defense of municipal management of San Francisco street railway. M. M. O'Shaughnessy 1872
Streets of steep grade, problems of construction j*249
Water supply:
Hetch-Hetchy project, development progress 867
Newark Slough section of pipe line tests very low leakage 909
(See also Water supply, San Francisco.)

Sand pumps use renewable liners (Krogh Pump & Machinery Co.) n*711
Sanding machine for icy and wet hills (Public Service Transportation Co.) ..n*790
Sanitary engineering:
State health departments, majority have now sanitary engineering department. e927
Scroll cases. (See Hydro-electric power plants.)
Sea walls:
San Francisco, Calif., groined concrete sea wall protects beach *693
Seattle, Wash.:
Charter, proposed, centralizes engineering work. n667, e676
City manager plan rejected and woman mayor elected n462
Sewage disposal, two million bonds voted n542
Water supply development progress.... 867
Seismological records kept up by U. S. Coast and Geodetic Survey. E. L. Jones.1*207
Seismological Society of America:
Eastern Section organized n742

SEWAGE

Septic sewage, Los Angeles County concrete outfall, seven different sewer linings experimented with. A. M. Rawn *18

SEWAGE DISPOSAL

Chicago Sanitary District:
Progress in construction. E. J. Kelly *394
Status of construction program in the six projects. E. J. Kelly *363
Irrigation use of sewage effluent, at Walla Walla, Wash. 731
Seattle, Wash., votes two million bonds for sewage disposal n542

SEWAGE TREATMENT

Activated sludge:
Heat-drying of sludge at Baltimore sewage-works tried but discontinued. C. E. Keefer 238
Milwaukee, Wis., tuning-up difficulties and methods of eliminating troubles. T. C. Hatton *446
New Jersey Sewage-Works Association, meeting at Trenton and discussion of sludge digestion e512, n539
Chlorination:
Excess chlorination advocated by New York State Department of Health, Division of Sanitation 579
Schenectady, N. Y., research on chlorination of sewage trickling filters as to nitrification and elimination of psychoda, 938, M. Cohn *943
H. P. Eddy, F. W. Mohlman, and W. Rudolfs, M. Cohn l1035
Gas recovery, from Imhoff tanks, at Decatur, Ill. W. D. Hatfield a645
Pre-aeration:
Decatur, Ill., pre-aeration experiment triples filter rate 700
Sludge digestion:
Early days of sludge digestion. H. W. Clark. l1034
Separate sludge digestion tanks, use is a reversion to type e797
Small town sludge digestion system, as at Hartford, Wis. e675, J. Donohue *690

SEWAGE WORKS

Chicago Sanitary District:
North Side plant, design and early construction. E. J. Kelly *394
Decatur, Ill., gas recovery from Imhoff tanks. W. D. Hatfield a645
Elk City, Okla., town of 4,000 spends $90 per capita for water and sewage works *852
Filters:
Trickling filters, Akron, Ohio, will use 223,000 cu.yd. of limestone. J. E. Root 803
Jamaica, Long Island, sewage-works, caisson sinking in saturated sand involves plant layout problem *1016
New Jersey Sewage-Works Association, meeting at Trenton and discussion of sludge digestion e512, n539
Screening plant at Los Angeles *898
Brooklyn, N. Y.:
Flatbush Ave. sewer, trench jacks used to center wooden forms j*496

SEWER CONSTRUCTION

Tunneling dry sand made "live" by passing trains *804
Wythe Ave., Hamilton Ave., and Flatbush, heavy sewer construction.... *488
Gooseneck, near Kansas City, Mo., sewer curb carried by truck running over invert j*860
Ohio, extra-municipal sewer work held up due to federal court ruling n873
Sheetpiling pulled with difficulty, in construction of large Brooklyn sewer.... j248
Templet, traveling, for erecting sewer reinforcing steel on Blue River sewer at Kansas City *782

SEWER DESIGN

Curve used at Detroit, Mich., of time and intensity of rainfall, in the design of sewers j*410
Correction of equation j499
Sanitary sewers, two diagrams for use in design. J. R. McComas..... j*951

SEWERAGE

Detroit, Mich.:
$101,028,000 needed for sewerage and treatment *112
Middle West cities, table of sewerage systems 153

SEWERS

Brooklyn, N. Y.:
Construction of large sewer, difficulties of pulling tongue-and-groove sheetpiling j248
Flatbush Ave. sewer, trench jacks used to center wooden forms in sewer construction j*496
Wythe Ave., Hamilton Ave. and Flatbush relief sewer, heavy sewer construction *488
Bulkhead, unique design, for connecting new to existing sewer, Brooklyn, N. Y. j*415
Concrete:
Leakage tests for 36-in. concrete sewage force main at Dallas, Texas. E. A. Kingsley l*294
Lining of concrete sewer pipe, seven types experimented with on Los Angeles County outfall sewer. A. M. Rawn 18
Detroit, Mich., program approved for extensive sewer construction n422
Lining:
Los Angeles County concrete outfall sewer, experiments with seven different linings. A. M. Rawn.... 18
Los Angeles County:
Ocean outfall favored by X. H. Goodnough, consulting engineer n708
Passaic Valley trunk sewer, status at end of 1925 85
Richmond, Va., 29-ft. concrete arch sewer. T. Towles l130
T-branches for sewer connections. H. B. Costill and A. Potter l170
T-junctions preferred by manufacturers. F. Holmes j170
Ts instead of Ys on pipe sewers. A. G. Dalzell l34
Toledo, Ohio, intercepting sewer system:
I—Design basis, location, and construction program. H. P. Jones... *526
II—Regulators and siphons. H. P. Jones *606
III—Discharge works. H. P. Jones..*718
Y sewer connections:
Small sewer lines, Y-branches have the advantage, main sewers, T-branches, as general fact. C. L. B. Anderson..l207

Shafts:
Coupling, flexible, for use on shaft-connected machines (Poole Engineering & Machine Co.) n*670
Shears, of light structure, with compound leverage for heavy work n*711
Shears, self-feeding, for cutting corrugated sheets (Joseph T. Ryerson & Son, Inc.) n*963
Sheetpiling driven with steam hammer with sliding guide attachment, in construction work on Steel Point Power Plant, Bridgeport, Conn. R. J. Riegeluth j*780
"Shenandoah," disaster. (See Accidents; and Metals.)

SHOVELS

Boom mechanism simplified on new power shovel (Thew Shovel Co.) n*39
Combined crane, dragline and shovel (Industrial Works) n*39
Diesel engine, high speed light oil engine, for power shovels (Foos Gas Engine Co.) n*1003
Engines for shovels:
Gasoline and air engines on new power shovel (Erie Steam Shovel Co.) n*301
Hoist clutch set by air on new power shovel (McMyler-Interstate Co.) n*100
Trench-hoe shovel attachment for excavator (Speeder Machinery Corp.) n*591
Tunnel shovel, revolving, many improved details (Nordberg Mfg. Co.) n*831
Signals:
Mt. Shasta surveying monument, highest signal in the world n*94
Sixth Great Lake in Canada, analysis of plan to form *358
Sliding forms. (See Concreting, formwork.)

SNOW REMOVAL

Bridges, snow removal an operating obligation e347
Bucket, two-purpose, for snow handling and other handling work (Hayward Co.) n*381
Buffalo, N. Y., puts snow removed from streets on the sidewalks ..... (e)306
Cost of removal of snow from streets is another cause of high taxes e225
Illinois Central R.R. plan for melting snow on tracks at Chicago terminal .. *486
Loaders:
New loader, adjustable boom (George) Haiss Mfg. Co.) n*427
Plow and elevating loader combined (Union Iron Works, and D. A. Sargent) n*831
Snow plow attachment operated by hydraulic jack (Baker Mfg. Co.) n*39
Snow-sheds:
Concrete snow-sheds built on unit construction plan, Southern Pacific R.R., in the Sierra Nevadas at Summit *533
Society for Promotion of Engineering Education, annual convention n1037
Spillways:
Alouette dam spillway, each channel lined with concrete. C. E. Blee *777
Spillways on lower Mississippi. (See River control and regulation: Rivers.)
Squeegee for applying bituminous filler on highway work (Littleford Bros.) n*39
Stadia and date, as plurals. F. C. Shenehon l945
Stadiums:
Kentucky, University, stadium, construction. D. V. Terrell *739
Reviewing stand, Pasadena, Calif., that collapsed, found defective in design .. n*174
Standardization:
Do standard specifications for quality improve practice? H. H. George l1035
International Standards Association initiated n705
International Standardization Conference, meeting in New York City n664
Mathews, J. A., challenges too much standardization in specifications e885
Standardization, technical, meeting in New York City behind closed doors e637
Standpipes:
Milford Water Co., Milford, Mass., water standpipe made up of steel plates .. j*871
Steel:
Alloy steel developed for culvert use (Canton Culvert & Silo Co.) n831
Working stresses. (See Stresses.)
(See Building design; Structural design.)
Stone, slate, granite, marble, sandstone, etc., permeability measured at U. S. Bureau of Standards 281
Strain gages. (See Stresses.)
Stream pollution:
Oregon league discusses stream pollution n257

STREETS

Parking:
Boston mayor's plan to charge for space in streets used for parking .. e265
San Francisco, Calif., streets of steep grade, solving of construction problems j*249
Traffic signals:
Intervals too long between signals at street intersections e472

STRESSES

Arch stresses:
Temperature deformations in concrete arches. H. Cross *190
Continuous beams and rigid frames, new analyzer "Continostat" (Gottschalk) .. n*590
Distribution of stress in building design:
Graphical construction of street distribution diagram, J. A. Wise .. j*248
W. W. Hay, T. Lindberg and H. A. Schirmer l*537
I-beam web, observed street distribution. O. H. Basquin *892
Misleading statement is that "18,000 lb. unit stress makes possible 12 per cent reduction in amount of steel needed for any given building." R. Fleming l784
Steel working stress of 18,000 lb. adopted by Conference Committee of American Society of Civil Engineers .. n874
Strain gages:
Carbon-resistance strain gages in tests in Germany 773
Working stress limit:
Conference committee of engineers and fabricators agree on 18,000 lb. unit working stress e883

STRUCTURAL DESIGN

Batten-plate columns: their status and a design theory. R. Fleming and W. H. Weiskopf *412
Concealment of heavily stressed tension members where they cannot be inspected is a possible source of danger in large buildings. J. Chandler l956
Commodore Perry hotel, trusses accessible for inspection. G. V. Rhines l1035
Riveting and welding compared with regard to development of structural strength e796
Safety bill proposed by New York Section of American Society of Civil Engineers n504
Tests:
Analyzer for continuous beamed and rigid frames developed in Buenos Aires n*590
Structural research:
Analyzer for testing deflections in beams and rigid frames, developed in Buenos Aires n*590
Structural Steel Board of Trade:
Protest against bidding when engineering plans and incomplete makes for better engineering practice e512
Subscribers to *Engineering News-Record*, veterans 789

SUBWAYS

Obstruction of streets, as noted in Philadelphia and New York e715
Waterproofing for subways, unit prices tabulated n633
(See Cities, by name.)
Sulphur used to strengthen pre-cast concrete units, best method of treatment and tests. W. H. Kobbe *940
Surveying instruments:
Precise transit, easy handling (W. & L. E. Gurley) n*508
Transits:
Brunton pocket transit, improved (W. Ainsworth & Sons) n*507

SURVEYS AND SURVEYING

Aerial surveying:
Minnesota and Canada, air mapping under frigid conditions 240
Monument, surveying, on Mt. Shasta, highest signal in the world n*94
Tapes, long, use in Central and South America as well as United States. W. Asher l170
Swimming-pool in Chicago club building made with welded plates *366
Swing-Johnson bill. (See Rivers, Colorado.)

T

Tacna-Arica boundary, engineering surveys, an engineer's experiences *231
Tacoma, Wash.:
Water supply development progress 867
Tampa, Fla.:
Water supply:
City spending $1,000,000 866
Tanks:
Charleston, S. C., builds 2-m.g. elevated steel tank for water storage *848

TAXATION

Gasoline tax:
Illinois county road superintendents want gas tax n424
Income tax:
American Water Works Association committee sends circular on income tax to water-works employes n376
Federal bill affords relief for state and municipal employees n339
Municipal employees' income tax:
Commissioner of Internal Revenue orders to refund, credit, or abate tax payments where proper n503
Metcalf & Eddy lose income tax suit on appeal n97, e102
Test suit brought by American Institute of Consulting Engineers. A. Hazen l206
Reduction act of 1926, high spots in new revenue law and probability will be last of post-War reduction measures. R. M. Haig n429
Teredos. (See Marine borers.)
Testing machine, vertical screws (Riehle) n*1043
Tidal Power in Passamaquoddy Bay, permit for development granted to D. P. Cooper, Inc., of Eastport, Maine n827
Ties. (See Railway track and trackwork.)
Tile:
Hollow building tile:
Chicago, Ill., new ordinance permits use of hollow hard tile for buildings n504
One more standard size added n426
Tile setting, apprentice school n1042
Toledo, Ohio:
Sewer system, intercepting sewers:
I—Basis for design, location and construction program. H. P. Jones .. *526
II—Regulators and Siphons. H. P. Jones *606
III—Discharge works. H. P. Jones .. *718
Topeka, Kansas, city engineering *769
Tourist business in Wisconsin amounts to $100,000,000 561
Tracing paper white and odorless (Special paper Mfg. Co.) n1003
Tractors:
Caterpillar tractor development and application to industry n962
Trade associations:
Protest against incomplete bidding plans and unfair contract clauses will tend to strengthen specifications by engineers e265
Trade cataloging, simplified n710

TRAFFIC AND TRAFFIC CONTROL

Buffalo, N. Y., traffic control progress during 1925 568
Cook County, Ill., traffic survey fruitful e967
Drawbridges opened for waterway traffic during passenger rush hours e511, n540, e636
War Department position. H. Taylor l662
Florida Gulf Coast beach, solving parking problem. W. E. Wheat j*659
Intervals too long between signals at street intersections e472
London, Trafalgar Square, no more right turns 700
Motorbus and truck lines, control problems e716
Paris, France, to hold competition for traffic relief plans n295
Parking:
New York City, Fifth Avenue Association protests against restriction of parking e927
Pedestrian subways, fifty under construction in Los Angeles. e928. R. H. Bacon *949
Simultaneous traffic control plan developed in four-interval movement .. *858
Truck system over Illinois highways, in competition with railways, Benton, Ill., Trade Council opposes n744
(See National Conference on Street and Highway Safety.)
Transportation:
Staggering office hours e391
(See Cities, by name; Highway traffic; Railways; Traffic.)
Transit:
New Jersey transit relief plan proposed by commission e181, 205
New Jersey transit plan submitted to legislature n172
Transits. (See Surveying instruments.)
Trenching machines:
Belt conveyor, long, portable, used with trenching machine (Northern Conveyor & Mfg. Co.) n*917
(See also Excavating machinery.)
Trestles:
Missouri builds timber trestle bridges with concrete floors *536
Trucks. (See Motor trucks.)
Trucks, traffic on highways. (See Traffic.)

TRUSSES

Barn made with steel arch trusses *900
Commodore Perry Hotel, trusses accessible for inspection. G. V. Rhines. l1035
Paramount theater building, New York City, large trusses erected by traveler. *454
Riveted and welded trusses tested to failure by Linde Air Products Co. at Buffalo plant n*826

TUNNELS AND TUNNELING

Balch hydro-electric power plant in California, air lift, home-made, replaces sidings for exchange of cars in tunnel work j*954
Buck Creek hydro-electric project tunnel cave-in imperils six, five killed n708
Cascade Mountains tunnel, Washington state committee to study feasibility .. n913
Cascade tunnel, 7¾ miles long, for Great Northern Ry., contract, location, profile *28
Construction status at end of 1925 .. 84
Work well under way n539
Duboce tunnel at San Francisco, for street car traffic, work under way ... n959
Detroit River tunnel:
Detroit and Windsor Subway Co. formed to conduct tunnel construction n959
Holland vehicular tunnel, under Hudson River, New York City to New Jersey. Costs again increased n424
New Jersey approach:
Estimates of cost too low, New Jersey legislature must provide more funds e348
Status of construction at end of 1925. 85
Illinois Central R.R. recent rock tunneling methods *370
Kansas City, Mo., water-works tunnels, driving tunnels and sinking shafts in slaking rock *573
Mersey tunnel, England:
Hewett, B. H. M., to direct construction n256
Moffat tunnel:
Water flow struck, and method of handling. C. A. Betts *985
Headings more than three-quarters through n*97

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Hole through date July, 1926. C. A. Betts ..... •284
Leased to the Denver & Salt Lake Ry. n133
Status of construction at end of 1925. 84
Timber dapping machine used..... j•333
Montreal tunnel under St. Lawrence River opposed n586
Mystic Lake tunnel, Montana, taps lake below water surface ..... •642
Sewer work in Brooklyn, New York, dry sand made "live" by passing train is difficult medium to tunnel through.. •804
Shovel for tunneling, revolving, many improved details (Nordberg Mfg. Co.). .n•831

TURBINES

Big Creek No. 2-A plant to have two impulse turbines of 56,000 hp. under high head n742
Oak Grove unit on Portland Electric Power Co. system, efficiency test on high-head reaction turbine ..... •18
Runners, cast-iron, replaced quickly after failure, Copco No. 2 plant on Klamath River 764

WATER PURIFICATION

Chlorination:
Feed by automatic control in vacuum-type chlorinator (Wallace & Tiernan Co.) ..... n•879
Hydraulically-operated automatic chlorine shut-off installed at Buffalo (Paradon Engineering Co.)..... n•878
Patent of Wallace & Tiernan on solution-feed chlorinator upheld in case against Paradon Engineering Co....n878
Filtration:
Alum and iron sulphate applications, tests at Oklahoma City on velocity, time and temperature factors in reaction chamber. C. H. Spalding...•644
Alum conveyed by pneumatic conveyor system at Minneapolis filter plant. J. A. Jensen..... •766
Corn cobs tested for filter medium, in Illinois 494
Springfield, Mass., filtration plant, slow sand filter capacity doubled.. 19
El Centro, Calif., treatment plant makes turbid Colorado River water fit to drink. I. C. Harris ..... •896
Softening of water supplies:
Chemical cost for reducing water hardness, at Columbus, Ohio..... 726

WATER RESOURCES

Control of public waters is government's business, statement of Owen D. Young at meeting of National Electric Light Association e837

WATER SUPPLY

Arlington County, Virginia, may get water from Washington n665
Baltimore, Md., reservoir, to impound 23 b.g. n586
Boston, Mass., Metropolitan District comprehensive water supply plan. N. E. W. W. A. discussion..... e347
Massachusetts law permitting Boston to go to Ware and Swift Rivers for more water e929, 934
Boston Metropolitan District:
Zoning of water areas advocated, at meeting of New England Water Works Association..... e432, n463
Cafeteria supply in school receives chlorine from swimming tank supply. "Water purveyor" 1662
Conduits. (See Pipe and pipe lines.)
Control of public water for public, power and irrigation is government's business, statement of Owen D. Young at meeting of National Electric Light Association e837
Cross-connections:
New York State prohibits cross-connections 161
Denver, Colo.:
Deadlock delays expansion of water supply n785
East Bay District, California:
Progress in development of water supply 867, n874
Rights to Mokelumne River water granted n708
Florida Keys trying to solve fresh water problem n461
Glacier water to be used at Boulder, Colo. 353
Hot well water sprayed to cool for domestic use in suburb of Dallas, Texas ..... j•870
Intakes for water-works. (See Water-Works.)
Kansas City, Mo.:
Additional water supply:
General plan and outline of new works ..... •492
Mixing tanks and coagulating basins, economical concreting plant..... •808
Tunnel driving and shaft sinking in slaking rock, for new water-works.•573
Keene, N. H., fire service and quality of water improved 353
Lansing, Mich., well water developed with air lifts. L. R. Howson..... •846
London, England, huge reservoir and pumping station ..... •200
New Jersey Water Policy Commission:
Report submitted to New Jersey legislature n379
New Jersey water supply situation reviewed, paper by H. T. Critchlow at A.W.W.A. 985
Niles and Youngstown, Ohio, joint water supply projected n585
Oklahoma City, Okla., tests in application of alum and of iron sulphate, apparatus used and results. C. H. Spalding ..... •644
Saginaw, Mich., voters choose water supply a doorstep n338
St. Louis, Mo.:
Mississippi River, control of channel to bring deep water to intake for new water-works. e555, E. E. Wall ..... •570
San Francisco:
Hetch Hetchy project:
Construction status at end of 1925.. 84
Foothill division, including construction of regulating reservoir at Moccasin Creek reservoir and foothill tunnel, funds voted..... n296
San Francisco Bay crossing of Hetch Hetchy aqueduct ..... •434
Niles Cones case, diversion of water from Alameda Creek, court decision in favor of Spring Valley Water Co. n296
Seattle, Wash., Cedar River reservoir, scaling operations 278
Tacoma, Wash.:
Water supply conduit, life of different sections plotted. W. A. Kunigk.•562
Wood-stave pipe line for water supply, life line of pipe plotted. W. A. Kunigk ..... •562
Thirst of cities for more and better water is never ending..... e836
Well water supplies:
Lansing, Mich., well water developed with air lifts. L. R. Howson....•846
(See Water-works: Wells.)
Youngstown, Ohio, and Niles, joint water supply projected n585
Zoning control of water supplies to provide for future, advocated in Boston case, at meeting of New England Water Works Association..e432, 451, n463
(See Boston Metropolitan District.)
(See Hydro-electric power; and Irrigation.)

WATER-WORKS

Bay City, Mich., new water-works displaces two old plants. J. W. Ellms.. •682
Bismarck, N. D., new pumps and filters housed in a single building. T. Dickinson ..... •371
Bonds or pay-as-you-go, discussed at meeting of New England Water Works Association 400
Buffalo, N. Y., condensers, surface condensers substituted for jet condensers at Ward pumping station. S. E. Roof.j858
Charge for water for construction use, at Mobile, Ala. 289
Charleston, S. C., builds 2-m.g. elevated steel tank for water storage and head.•848
Chicago, Ill., Western Ave. station, world's largest pumping station, factors in selection of site and in design of station, e835, L. D. Gayton.•838, 1867
Cincinnati, Ohio, old campaign for municipal ownership of water-works.. 443
Coal, powdered, for Des Moines water-works boilers 107
Condensers, for water-works use. W. Kiersted, Jr. j952
Construction trend steadily upward during thirteen years n881
Denver, Colo., intake constructed through earth dike under service..... •1010
Des Moines, Iowa, water-works boilers use powdered coal 107
El Centro, Calif., water treatment plant to make turbid Colorado River water fit to drink. I. C. Harris..... •896
Elk City, Okla., town of 4,000, spend $90 per capita for water and sewage works. W. L. Benham..... •852
Fire hydrants:
Compression type fire hydrant automatically drained (Michigan Valve & Foundry Co.) ..... n•879
Filtration plants:
Detroit experimental filter plant.....j•871
Filtration. (See water purification, filtration.)
Hannibal, Mo., new pumping and filtration plants. M. P. Hatcher....•727
Minneapolis, Minn., filters, filter-alum conveyor pneumatically operated. J. A. Jensen..... •766
Montebello filters at Baltimore, Md., concreting, including prehydration of cement ..... •850
Operating table (International Filter Co.) ..... n•879
Operation:
Apparatus for tests in applying alum and iron sulphate, testing for velocity, time and temperature, aid in filter operation. C. H. Spalding ..... •644
St. Louis, Mo., Chain of Rocks plant, mud balls reduced by jetting....j•1031

Sand of filter beds:
Collector of simple design for collecting samples of filter sand. A. V. Graf. j*868
Hannibal, Mo., pumping and filtration plants, construction. M. P. Hatcher. *727
Intakes for water supply:
Lake (Great Lakes) intakes for water supply, moot questions in design, and location to depths below possible pollution of water. e835, P. Hansen *861
St. Louis intake at Howard Bend. (See St. Louis.)
Kansas City, Mo., new water-works:
General plan for additional water supply *492
Mixing tanks and coagulating basins, concreting plant economical. *808
Tunnel driving and shaft sinking in slaking rock *573
Middle West cities, table of water-works systems. 153
Newport News, R. I., buys water-works. . n877
Operation:
Laboratory supervision saved Omaha $9,000 per year. K. C. Armstrong. . a119
Port Angeles, Wash., reservoir has unique concrete lining. M. P. Hatcher and E. L. Ferguson. *859
Providence, R. I., aqueduct, construction of steel portion. B. F. Snow. *159
Pumping stations:
Condensers, surface, substituted for jet condensers at Ward pumping station, Buffalo, N. Y. S. E. Roof. . j*869
Lansing, Mich., air lift for development of well water supply. L. R. Howson. *846
St. Paul, Minn., cross-compound pumping units show high duty. 855
World's largest pumping station at Western Ave. in Chicago. e835, L. D. Gayton. 838, 867
Quincy, Mass., water-works improvements authorized. n463
St. Louis, Mo.
Diversion of Missouri River to bring water to intake for water-works. e555, E. E. Wall. *570
Intake at Howard Bend on Missouri River.
Cofferdam with cellular wall built to inclose intake emplacement. e835, J. C. Pritchard. *862
Piledriving and sealing of cofferdam under water. John C. Pritchard. . *930
St. Paul, Minn., pumping units, cross-compound, show high duty. 855
Wells:
Air-lift well design keeps screens open (Sullivan Machinery Co.). . . n*879
Wells for water supply, testing yields, methods used (Illinois Society of Engineers paper). G. C. Habermeyer and C. V. Swearingen. a414
Water works engineering:
Texas school for water-works men held at Fort Worth. n298
Waterloo, Iowa, city engineering. *401

WATERWAYS:

All-American Canal. (See Canals.)
Bremen, Germany, inland waterway traffic increases. 738
Calumet harbor project, for Chicago, checked. n255
Enthusiast gives figures on value of waterways at Pittsburgh, Pa. S. A. Thompson. l420
Great Lakes to Hudson waterway. (See Canals, All-American.)
Great Lakes-St. Lawrence development, status at end of 1925. 85
Illinois waterway:
Leisurely construction. e226
Lockport lock construction plant. *e226, *228.
Gates, lift, of heavy construction W. M. Smith. *722
(See also Illinois waterway.)
Inland waterways:
Federal inland waterways operated at loss during 1925. . . . . n743
Hoover report in favor of large inland waterways n211, n421
Terminals and towboats for inland navigation, paper presented at meeting of Society of Naval Architects. 482
Will the inland waterways come back? e183
Railway passenger and waterway freight traffic, War Department's ruling on opening of drawbridges. e636
Sixth Great Lake, analysis of plan to form, in Canada. *358

WELDING

American Welding Society meets, and discusses fusion welding. n706
Electric welding:
General Electric Co. laboratories at Schenectady and Lynn develop two improved methods of electric welding 647
Electrically welded pipe line for:
Medford, Ore., water supply n540
Seam welding of sheet steel (Gibb Welding Machines Co.). n*747
Riveting and welding compared with regard to development of structural strength. e796
Rotary kiln construction, riveting and welding compared, report before American Welding Society. 889
Swimming-pool in Chicago club building made with welded plates. *366
Trusses welded and riveted tested to failure by Linde Air Products Co. at Buffalo plant. n*826

WELLS

Air-lift well design keeps screens open Sullivan Machinery Co. n*879
Water-works wells, testing yields, methods used. (Illinois Society of Engineers paper.) G. C. Habermeyer and C. V. Swearingen. a414

WESTERN SOCIETY OF ENGINEERS

Annual meeting announced. n588
Celebration of 56th year of work. n959
Highway transport conference. n706
Officers elected. n587
Plasterers' demands in Chicago criticized. n786
Westchester County, department of engineering created. n665
Westinghouse Electric and Manufacturing Co., achievements during 1925. . . . . n*259
Wharves:
Quays. (See Quays).
Wheels with rubber tires and detachable steel lugs for Fordson equipment (manufactured by Wehr Co.). n*1003

WIRE

Sheathed electric wire (Rome Wire Co.). n*591
Wire and sheet metal gages:
Conference of American Engineering Standards Committee and other organizations. n379
Simplification progress. n466, n504
Wisconsin, Engineering Society of, meeting. n340
Wisconsin, tourists spend $100,000,000 in 1925 561
Wood preservation:
Creosoting of railroad ties. (See Railway track and trackwork.)
Wood preserveres' Association:
Annual meeting. 284, n257
World power conference:
Merrill, O. C., to attend meeting at Basle, Switzerland. n667

Y

Yale University engineering camp to be built. n587
Youngstown, Ohio, and Niles, joint water supply projected. n585

Z

Zoning, in cities and regions. (See City planning, zoning: Regional Planning.)
